Compliments of
MALONEY*bros*
and **WELL***Co*

DANSVILLE N.Y.

New York State's
Largest Nurseries

Personal

Dear Friend:—

This is a personal invitation to you to come to Dansville as our guest and visit our Nurseries. We want you to know us personally, not only because we are proud of our business but because we want to be able to prove to you that there is not a claim or statement in this catalog which we cannot absolutely back up.

One customer visited us for the first time this Summer. On leaving he reached out his hand and said: "Well, Mr. Maloney, I'm glad I came—I've bought from your catalog for years. I've thought of Maloney Brothers & Wells Company as an institution. Now I will think of you and your firm as personal friends. I like you and the way you do business, but I like best of all the fact that you are sincere in trying to give everybody a fair deal."

Pardon me for quoting this personal compliment. But somehow it just expresses my idea as to the way I want the people who buy from us to feel.

My brother and I are still young men. We are ambitious to make our business larger year after year and still hand down to our children as honorable a firm name as our father bequeathed to us.

That's why we appreciate Mr. John's compliment. We do try to give everybody who buys from us a fair deal. Sometimes we slip but we are always here to make good.

That's my personal message to you. We are here to make good if anything you buy from us is not satisfactory. If you will only drop off at Dansville the next time you are near here you will find the Maloney Brothers have a host of friends in their home town, a good reputation at the bank and as fine a group of four nursery farms as any in the country, that we are making a good legitimate profit at the prices we quote in our catalog, and can't afford to send out anything but the best grade nursery stock because we have our good name to live up to and our ambition to make our business grow.

If there is anything you question in the catalog or any other information you require, I will take it as a favor if you write me about it.

Yours sincerely,

H. J. Maloney Sec'y

Your letters receive the personal attention of W. J. Maloney. Write him about your problems. He will be glad to give you the benefit of his very extensive experience.

Upland Grown Trees Are Best For Planting

We claim and can prove to your satisfaction that our upland grown trees are bigger, hardier and more vigorous than those offered by others. We own our farms on which we propagate, the soil is specially fitted, it is loose and very fertile, roots penetrate deeply, develop extensively and are fine and fibrous—the richness of the soil fills them chuck full of vitality.

ought to know : : : :**

Brought to the large packing house from the field under canvas. Maloney trees are here sorted, graded and packed without ever being exposed to sun or wind. Just a little more vitality for Maloney Trees.

Deal Direct the Catalogue Way

THAT the mail order business is growing and becoming a factor in the mercantile world is a statement which admits of no contradiction. It is a self-evident fact. Sooner or later everyone must recognize the more economical method of distributing certain products provided by the reliable catalogue house. Especially true is this in the nursery business. When it is so much cheaper and safer to buy direct from the firm that grows the stock and guarantees it to be right in every way, than to buy through at least two sets of middlemen and pay both their profits and the growers.

In pioneer days the agent was undoubtedly a great convenience, but advancing civilization has provided better and cheaper ways of getting goods to the consumer, which even the agent must eventually acknowledge superior to his more expensive system. Any improved method or system that eliminates loss, or effects a saving to the people, whether individually or collectively, is a benefit to the community and country. As civilization advances new and better methods are constantly replacing old ones. Manufacturers have been quick to adopt the improvements our inventors have provided, hence it remains for the public at large to follow the example of the manufacturers and avail itself of the modern and economical method of distribution.

Years ago, before the establishment of mail order houses and before the making of catalogues had approached as near perfection as it has today, people predicted failure for those who attempted to sell direct to the consumer. Nevertheless it is acknowledged today as being the safest and most economical way of buying. The first large catalogue house was established in 1872 in a loft over a livery stable in the city of Chicago, and has been doing a very successful business since.

In fact the catalogue has revolutionized general merchandising. The farmer, the man living in distant villages, yes, the Professional man in the busy Metropolis, can sit down by his fireside and make selections at his leisure from this beautifully illustrated, descriptive catalogue; his family can assist in choosing the varieties most desirable for the lawn, garden and orchard, and have his goods delivered either by freight, express or parcel post. There is not a hamlet in the United States which is not reached by one of these systems.

A. E. Maloney inspecting your trees before passing them on to the packers.

**Dealing Our Way
The Middleman's Profit
Remains in Your Pocket**

A. E. Maloney at right personally supervises budding and every detail of propagation

Why It Is Profitable to Buy of Maloney Bros. & Wells Co.

Our seedlings for propagation purposes are imported from France, and we get only the very best whole, branched root stock. The work of budding, sprouting, pruning, grading, etc. is done by men who are experts; men whom we have trained for 20 years to do the work Maloney way. On account of this careful propagating system you will find there is no time lost in reshaping the trees in your orchard.

Maloney's Nurseries are regularly inspected by duly authorized State Inspectors so that the trees not only reach you in healthy condition but you get trees which have not been stunted by the attack of insects and disease.

DIGGING AND HANDLING of trees is of vital importance. We own one of the three steam diggers which are now in operation in the United States. This system of digging is acknowledged by practical Nurserymen as being, beyond any question of doubt, the most satisfactory way for taking up trees and insures patrons of being supplied with stock which is equipped with a beautiful fibrous root system. It might be interesting to know that New York State sent for a photograph of our steam digger to use in a new geography to illustrate modern methods in the Nursery Business. The trees are taken from the field to the packing house under cover of canvas where they are properly graded and sorted. By this course of procedure they are not exposed to the sun or wind. It is well worthy of note that a few hours of sun or wind exposure is equally as harmful as a light frost. When planting it will be well to bear this in mind.

PACKING. It is of utmost importance that trees should be so packed that they will arrive at destination in a high state of vitality. Maloney's system of expert packing and paper lining the boxes insures their reaching you in just as nice shape as when leaving the nursery.

Maloney care insures vigorous stock. If you have had any experience on the farm, what was your first consideration in securing your seed? You sort from your corn the best developed ears, select your potatoes from the field that has produced a splendid yield, choose beans which have been developed to some size. Our experience with nursery stock shows that trees of low vitality caused by a stunted growth will never produce a satisfactory orchard, so the Maloneys secure their scions for budding from selected bearing trees of superior fruiting habits, using the very best seedlings on which to propagate and prepare the ground two or three years in advance for the reception of the stock, thereby making certain of producing healthy, vigorous trees.

Mr. Planter, that's the reason Maloney trees require considerably less work when transplanted and you have the positive assurance of receiving varieties which are not only true to name, but such as will develop a splendid grade of fruit.

The Maloney way of growing can only be accomplished by people who have had years of experience, hence it is to your advantage and interest to purchase from the people who have been established long enough for the merits of their trees to be fully tested. When you buy from us, you get the benefit of the experience of two generations. So confident are we of the genuineness of our varieties that we give a broad guarantee. This appears on page 6 and we think you will agree, protects you fully.

Mr. A. E. Maloney personally supervises the growing of the stock. Mr. W. J. Maloney answers your letters, your questions, your problems, and is glad to have you submit them to him. Feel at liberty to call on him and receive the benefit of his many years of experience.

Digging By Steam The Most Satisfactory Way

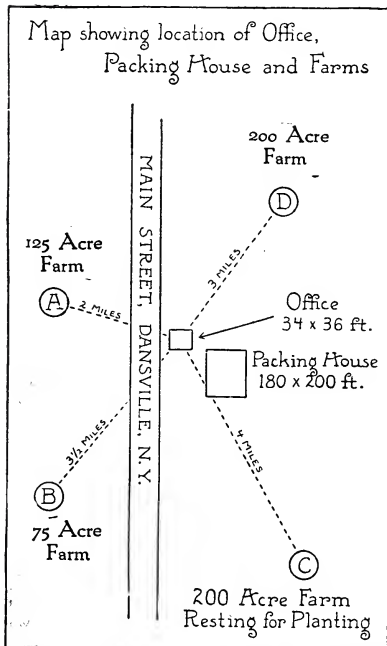

Why You Will Save Money When Buying Your Trees, Shrubs, Roses and Ornamentals This Spring

MR. Planter, do you know practically all the seedlings which the nurserymen of the United States use for propagation purposes are imported from England, Germany and France, and owing to the terrible war being carried on in these countries that the seedling production has been cut 50%? Therefore, since nurserymen all over this country have for the past two years been setting but 50% of their normal plant, that next year, 1918, will see a big advance in all kinds of nursery stock. Dear friends, these are the facts.

Inasmuch as it requires two years to develop nursery stock, the first light plant matures Fall 1918. We are acquainting our customers with existing conditions so that you may make your purchases at the normal prices and not put off buying another year.

We all know how other commodities have advanced, and you can readily see why nurserymen will have to advance their wares soon.

The wise buyer buys this Spring.

It's a good thing to show a diagram, but it means more to you to have it verified

To Whom It May Concern

I have visited the farms, packing houses, nurseries and office of Maloney Bros. & Wells Co., and find the diagram appearing on this page is correct. I have known this firm for years, in fact, from their entrance into the nursery business, and have watched their wonderful and rapid advancement, which is largely due to their careful painstaking attention, and believe it is generally understood they are New York State's largest nurserymen.

It is with pleasure that I recommend them to the planter and fruit grower of the United States for I know when you purchase of Maloney Bros. & Wells Co., you are absolutely assured of a square deal.

Signed:—

JOSEPH STIEGLER,
Mayor of Dansville, N. Y.

The Wise Buyer Orders Early

GLEN IRIS ORCHARD CONTAINING 7,500 MALONEY TREES—CASTILE, N. Y.

Plant Maloney Trees and Avoid Disappointment

Castile, N. Y., Nov. 1, 1915.
Maloney Bros. & Wells Co.,
Gentlemen:—

We are forwarding under separate cover photograph of our orchard planted spring 1912. Since you furnished the trees thought you would be interested in knowing they had succeeded wonderfully well—most every tree had more or less apples on this fall which were true to name, and are very much gratified with the excellent strain. We remain,

Yours respectfully,
Glen Iris Orchard Co.

Highland, N. Y., Nov. 29, 1916.
Maloney Bros. & Wells Co.,
Gentlemen:—

The 200 McIntosh and 175 Baldwin trees came to hand the 25th inst., and to say that the trees are handsome ones would but mildly express the quality of them.

I wish to thank your company for the fairness with which you have treated me.

Very respectfully yours, A. W. Williams.

Large and Small Orders Receive the Same Attention

Milwaukee, Wis.
Nov. 16, 1916.
Maloney Bros. & Wells Co.,
Gentlemen:—

My trees (2247 Apples) arrived on the 4th in fine condition and were certainly a nice lot of trees. Wish to thank you for all the attention you gave my order.

Yours truly,
A. T. White.

Glens Falls, N. Y.
Nov. 6, 1916.

Maloney Brothers & Wells Co.,
Gentlemen:—

I received the 14 fruit trees in A No. 1 condition. I must say that I have never seen such clean, healthy stock before and I have handled stock from many places.

Yours truly,
Irving A. Gardner.

Maloney's Broad Guarantee

It Proves That We Recognize and Accept Our Responsibility to the Fruit Grower

WE GUARANTEE all trees and plants purchased from us to be true to name. If any stock does not prove true to name and as represented by us, we will make good your loss or damage any time within ten years after date of purchase. If for any reason, we cannot agree on adjustment, we are each to appoint an arbiter who shall choose a third party and we shall accept the award of the majority as binding on us. We guarantee our stock to reach our customers in good growing condition, and to be free from San Jose scale, Peach "Yellows" or other injurious pest or pests. Our guaranty means something to you, for it is backed by a firm with a capital of \$60,000.00 and an established national reputation extending over thirty years. If any mistake occurs on our part in regard to stock shipped to you, tell us about it. (It is up to you to be satisfied.)

33d Year

400 Acres

Capital \$60,000

ONE OF THE LARGE PEACH ORCHARDS ON THE JOHN S. BECKWITH FARM, ALBION, N. Y.

We have over 400 acres of nursery and grow our trees 1500 feet above sea level so they are hardy, healthy and vigorous. We cut our own scions for budding from trees of known merit, so that our trees are not only true to name but have superior fruiting habits.

Our Shipping Season usually opens here about the 10th of October and continues until cold weather.

Order Early. As our orders are shipped in the rotation they are received, and as we cannot delay orders received first for orders coming later on, we advise the placing of orders early.

We will allow a 6% discount on all cash orders received throughout the season or its equivalent in stock—Your selection. Order early.

Rates: 50 trees at hundred rate providing there are not less than ten of any one variety.

Terms. We will ship trees and plants C. O. D. providing 25% of the total of your order is sent in cash. If the order goes by express you pay the balance to your express agent upon arrival. If the order goes by freight you pay the balance at your bank, where you will also find Bill of Lading, which you present to your freight agent who will deliver shipment to you.

How to Remit. By Bank Draft, Express Money Order, Post Office Money Order or Registered Letter.

Boxing and Packing Free. We box and pack all shipments without charge.

State of New York

Department of Agriculture

Certificate of Inspection of Nursery Stock

This is to certify that the stock in the nursery of Maloney Bros. & Wells Co., of Dansville, County of Livingston, State of New York was duly examined in compliance with the provisions of Section 305 of the Agricultural Law and it was found to be apparently free from any contagious or infectious disease or diseases, or the San Jose Scale or other dangerously injurious insect pest or pests. This certificate expires September 1st, 1917. Dated, Albany, N. Y., September 3, 1916.
No. 1089.

CHARLES S. WILSON,
Commissioner of Agriculture.

Guide for Amateur Fruit Growers

This is an excellent book for anyone who has not made a study of fruit growing and wishes to be informed how to grow fruit successfully. This book deals with only common practices and simple methods adopted by practical planters. A splendid book for the amateur.

Price 25c. postpaid.

Currants	3 to 4 feet
Gooseberries	3 to 4 feet
Raspberries	3 to 4 feet
Blackberries	5 to 7 feet
Strawberries	1½ by 1½ feet
Asparagus, in beds	1 by 1½ feet
Asparagus, in fields	1 by 3 feet

Spraying

This is a brief outline of the principal sprayings for fruit. The necessity of spraying is acknowledged by all authorities as being one of the requirements of successful fruit growing. Spraying not only insures better fruit, but more of it, and greatly increases its quality and value.

Apple	1st Application	2nd Application	3rd Application	4th Application
	As buds show green at the tips, use lime-sulphur wash at winter strength for San Jose Scale and leaf blister-mite.	Just before blossoms open, for apple scab and various leaf-eating insects, use lime-sulphur solution (32° Beaume) diluted with forty parts of water, with two to three pounds arsenate of lead to forty gallons. May be omitted if insects are few and weather dry.	When blossoms are about two-thirds off, give same treatment as No. 2. This is the most important spraying for apple scab and codling moth. Should never be omitted.	About two weeks later repeat No. 2 if weather is favorable for apple scab; that is, moist and warm.
Pear	Spray as for apple. As foliage appears to be more susceptible to injuries by the spraying mixture, dilute the concentrated lime-sulphur solution (32° B.) in the proportions of 1 to 50 and apply the liquid in minimum quantities, using nozzles with fine apertures.	2nd application the same as No. 1.	3d application the same as No. 1.	4th application the same as No. 1.
Plum	For San Jose Scale spray as for apple.	When "husks" or calyces drop, spray with arsenate of lead, 3 lbs. to 50 gals. of water for the curculio. For leaf spot on European varieties use bordeaux mixture 5-5 50 with arsenate of lead.	For leaf spot repeat spraying with bordeaux mixture about ten days later. Japanese varieties of plums should be sprayed as directed for peaches.	
Cherry	Spray as for plums for S. J. Scale and the curculio.	Same as No. 1.	Same as No. 1.	Same as No. 1
Peach	For San Jose Scale and leaf curl, spray as buds begin to swell, with lime-sulphur wash at winter strength.	When "husks" or calyces are dropping, use two pounds of arsenate of lead to fifty gallons of water for the curculio. The self-boiled lime-sulphur mixture may be used as carrier of the poison to control also brown rot and scab.	Two or three weeks later use 8-8 50 self-boiled lime-sulphur mixture and two pounds of arsenate of lead.	About one month before fruit ripens, repeat treatment with self-boiled mixture, omitting the poison.
Raspberry	Before buds open, Bordeaux.	When new canes are a foot high. Bordeaux.	Two weeks later, Bordeaux.	
Grape	Before buds open, Copper Sulphate and Paris Green.	When the leaves are half grown, Paris Green.	When the fruit is set, Paris Green.	Repeat in 3 weeks if necessary, Paris Green.
Gooseberry	As leaves open Bordeaux.	Repeating in 2 weeks, Bordeaux.	2 weeks later, Bordeaux.	Repeat in 2 weeks if necessary, Bordeaux.
Currants	As soon as worms are found on lower and inner leaves, Bordeaux.	If worms reappear, repeat in 2 weeks, Bordeaux.	Repeat in 4 weeks if necessary, Hellebore.	After fruit is picked, Bordeaux freely.
Strawberry	Just as the blossoms open, Bordeaux.	After fruit is set, Bordeaux.	As soon as berries are harvested, Bordeaux.	

The Boiled Lime-Sulphur Wash

Lump Lime.....20 lbs.

Sulphur.....15 lbs.

Water.....50 gal.

Slake the lime with hot water and make a thin white-wash. Stir in the sulphur and boil one hour. Add water to make the required amount of wash and strain the wash through a fine strainer into the spraying tank. Application should be made while the wash is warm. Flowers of sulphur, and light and heavy sulphur flour may be used. For the average orchardists this wash will give better results on scale than oil sprays, and the lime-sulphur mixture is especially recommended for the treatment of scale and leaf curl on peaches, the application being made as early as possible in the spring. Sulphur washes of this strength injure foliage and should only be applied to dormant trees.

Formula for Concentrated Lime-Sulphur Solution

Lime) Pure CaO, 36 lbs.
) If 95% pure, 38 lbs.
) If 90% pure, 40 lbs.

Sulphur, high grade,
 finely divided.....80 lbs.

Water.....50 gal.

The concentrated mixture is preferred by many fruit growers because of the convenience in handling it as compared with the above wash. The concentrated preparations are free from clogging sediment, may be used cold, are storable and, therefore, available for use as convenient.

Self-Boiled Lime Sulphur Mixture for Summer Spraying of Peaches and Japanese Plums

Fresh Stone Lime.....8 lbs.

Sulphur.....8 lbs.

Water.....50 gal.

Place lime in a barrel and pour on enough water to cover it. As lime begins to slake, stir in the sulphur which has previously been sifted to get rid of lumps. Add water as is needed to keep the mixture in form of rather thick paste at first, then gradually to a thin paste. As soon as lime is well slacked, add the full amount of water to prevent further cooking. The sulphur should not go into solution. Strain into spraying tank and apply.

Bordeaux Mixture

Copper Sulphate.....6 lbs.

Quicklime.....4 lbs.

Water.....45 gal.

Tobacco

Boil tobacco stems, and use at the rate of two gallons to each pound of stems, for sucking insects.

Planting Directions

Important. Read Carefully

Preparation of the Soil.—Prepare a rich deep bed of mellow soil, and have the land sufficiently drained to relieve the roots from standing water. For best results the land should be in as good condition as is required for a crop of wheat, corn or potatoes.

On new, fresh land, manuring will be unnecessary, but on land more or less run down, fertilizers must be applied either by turning under heavy crops of clover, or well decomposed manure. Such preparation of the soil will furnish a nourishment which is absolutely necessary to insure success.

Pruning the Tree is a matter of great consequence. The illustration here shows the correct way to trim trees for planting, do not be afraid that you are pruning too severely for you are not; this is the proper way for best results.

Planting—Make the holes large enough to admit the roots without cramping or bending, and deep enough to set the trees to their natural depth. Fine surface soil should be used for covering the roots and this should be carefully worked among them. If the ground is dry, it is well to pour in some water when the hole is partially filled. See that the ground is firmly and solidly packed over all parts of the roots, so that there will be no opportunity for dry air or frost to enter and deprive the roots of the full benefit of their natural protection. Omission to pack the earth solidly is the most frequent cause of failure in planting nursery stock. We cannot too firmly impress upon you the importance of packing the earth firmly around the roots. Fill the holes full enough to be even with the surrounding surface after the fresh earth settles. Always remove the labels when planting. If these are left until the trees are grown, the connecting wire often cuts into and destroys the tree or branch to which it is attached. Never use manure in contact with roots. When planting dwarf trees, set them low enough to cover the stock upon which they are budded.

After-Culture—Grass should not be allowed to grow about your trees or plants. The ground should be cultivated for a space of at least a foot outside the roots. This should be done every 10 days the first year during May, June and July. If the ground is poor it should be enriched with surface applications of manure.

The following table shows how the different varieties of apples should be set.

Permanent Varieties

Amer. Blush	N. W. Greening

Correct Way to Prune Trees for Planting

Maloney Hardy Upland Grown Trees
Are Incomparable

Trees and Shrubs are Indispensable

Before

Planting

Dear Friends :—Have you not frequently remarked about the beauty of some home while driving through a city, town or country, has it ever occurred to you just what there was in particular about those places which appealed to your sense of beauty, was it not due largely to the splendid effect of a few shrubs and ornamental trees promiscuously planted?

Is it not true that a home, no matter how well built, if standing on a bare lot never causes a favorable comment? It's the few dollars invested in shrubs that gives warmth to the house and greatly increases its value. Note the illustrations on this page—which place would you select if buying?

A slight investment in shrubs, roses and ornamental trees will add greater value, comfort and solid satisfaction to your home than dollar for dollar invested in anything else. See pages 40-45.

Why Planters are More Successful with Maloney Quality Trees. Because we aim from the very beginning to give our patrons the most that can be had for the money. Too many Nurserymen economize by propagating on Western grown seedlings. No nurseryman can conscientiously do this for he well knows that Western seedlings are more or less troubled with that harmful crown and root gall. We eliminate this feature by importing our seedlings from France. Any of your inspectors will tell you that trees so propagated are longer lived and will net you greater returns. It is not so surprising after all that **Maloney Quality Trees** are being planted by thousands in every state in the Union east of the Rockies.

Apple Trees should be planted on elevated ground rather than in a hollow or low ground, and they require fertile soil, such as is needed for corn and wheat.

DANVILLE'S PIONEER WHOLESALE NURSERIES

Summer Varieties

Early Harvest. Medium to large size; pale yellow; tender, with a mild, fine flavor. Tree an erect grower and a good bearer; excellent for orchard and garden; one of the first to ripen. Middle to end of August.

Golden Sweet. Large, pale yellow, tree a good grower and very productive. August to September.

Red Astrachan. Tree hardy and regular bearer, a very vigorous grower; fruit large, roundish, nearly covered with deep crimson overspread with a thick bloom; juicy, rich and beautiful. This fruit commands the best price of all the summer varieties. July and August.

Sweet Bough. Large, pale yellow; sweet, tender and juicy. Tree a compact grower and abundant bearer. August.

Williams Early Red. Medium sized; dark red, sometimes yellow splashed; flesh is crisp, tender, juicy and subacid. Ranks above all but one or two of this class. Fine in Delaware and the South. Use it—it is a money-maker where you can ship to markets in hampers without delay. It is ready for market just about the time people are growing hungry for new Apples, and it brings top prices. August.

6-7 Ft. 5-6 Ft. 4-5 Ft. 3 Ft. and up

TWO YEAR APPLE BUDS

ONE YEAR BUDS

Yellow Transparent. Medium size, roundish, oblate, slightly conical; skin pale yellow when fully matured; flesh tender, juicy, sprightly, sub-acid; good. August.

Autumn Varieties

Alexander. Of Russian origin. Large, deep red or crimson; flesh yellowish white, crisp, tender, with pleasant flavor. Tree very hardy. October.

Autumn Strawberry. Medium, streaked, tender, juicy, fine, vigorous and productive. September to October.

Duchess of Oldenburg. Summer. Medium size; red striped; flesh white, juicy and excellent flavored. Trees are natural dwarf growers and make fine fillers; require small root and branch space. Crops nearly always large. One of the important varieties for all sections north of Mason and Dixon line. Thrives and yields well of high-grade fruit at all elevations in Pennsylvania, New York, Ohio and other northern states. Trees among the hardiest and one of the few that will stand the climate of Iowa, Minnesota, Montana, and other cold locations. You can depend on Duchess to yield Apples you can sell for good prices. August and September.

Fall Pippin. Very large, yellow, tender, juicy, and rich. Fine in all localities; tree vigorous. September and October.

Gravenstein. An attractive and excellent quality apple. Fruit large and uniform in size, skin thin, tender, greenish yellow overlaid with dark red. September to November.

Maiden's Blush. Large, flat; pale yellow with a red cheek; beautiful; tender and pleasant, but not high flavored. Tree an erect grower, and a good bearer. A valuable market apple. September and October.

Pound Sweet. A very large, round, yellow russett apple, very sweet and rich. Tree a vigorous, rapid, upright grower; valuable. October and November.

Pumpkin Sweet. Very large; yellowish russet, sweet and rich. Valuable. October and November.

Rambo. Medium, red and yellow. Mild flavor. Excellent old variety. Oct. to Dec.

YIELD PER ACRE

Plant Maloney Trees—Hardy, Upland Grown, for Best Returns

The average yield per acre of a good orchard under intelligent management with mature trees is

500 Boxes @ \$1.50 = \$750.00

Winter Varieties

American Blush. (High Quality Red Winter Apple). Here is an apple that is not surpassed the world over for large size, great beauty of color, or for excellent quality. Fruit large, roundish; color bright red on yellow skin; flesh yellow with a fine, rich, aromatic flavor, sub-acid. The tree is a vigorous grower, and is exceedingly productive, bearing an abundant crop of fruit every year. November to January.

Baldwin. This is the leading commercial variety in the American markets. It is to apples what Elberta is to peaches and Montmorency is to cherries. One of the best storage apples for export trade. Thousands of barrels of this fruit are exported to England annually. Baldwin is planted extensively and succeeds wonderfully well in all states east of the Mississippi. No variety yields larger crops, bears shipment better or is more attractive in colors size and shape. It is highly esteemed for an eating and cooking apple. Fruit large, bright red, crisp, juicy and rich. Trees vigorous, upright and productive. For a commercial orchard, it can be relied upon. If ever in doubt what kind of apples to plant, select Baldwin. It should be in every orchard. December to March.

Belleflower. Adapted to the northern and middle states; highly esteemed for its excellent dessert qualities. October to February.

Boiken. Annual bearer, vigorous grower. Fair size, hardy; bears young, very attractive and regarded as one of the most valuable apples of recent introductions. November to March.

roneous Impression.

Year After Year Maloney Service Improves

Newport, Pa.
Maloney Bros. & Wells Co., Danville, N. Y.
Gentlemen: I wish to thank you for the prompt shipment and the great care you took in preparing the last trees I got. In two weeks after they were planted, every tree was full of leaves and they were the finest stock we ever received from you. The first ones were fine, but these are much better. We now have about 800 of your trees planted and will still plant more.

Very truly yours,

J. H. Emery.

Ben Davis. is hardy and attractive, succeeds wherever apples are grown. There is no apple that has more favors on account of its hardiness, productiveness, beauty and endurance in shipping. It is excellent for cooking. There are better apples but where Ben Davis succeeds one can always be sure of success, owing to its regular and heavy bearing qualities. The fruit is thick-skinned, does not show bruises easily, and presents a good appearance in the package after being handled and shipped in the ordinary way. November to April.

Delicious. No new variety has ever so quickly gained popularity in so many different apple sections of our country. Fruit large, nearly covered with brilliant dark red, flesh fine grained, crisp and melting, juicy with a delightful aroma; of very highest quality. A splendid keeper and shipper. Tree one of the hardiest. November to April.

Fameuse. (Snow Apple). Medium size; deep crimson; flesh snowy white, melting and delicious, one of the finest dessert fruits and valuable for market; a good baking apple. Oct. to Dec.

Gano. An improved Ben Davis, adding to the good qualities of that variety a much handsomer fruit of deep, dark red, that brings a ready sale in market. December to March.

Gilliflower. (Black.) An old dessert apple; tree a good vigorous grower and a reliable cropper. October to February.

Grimes' Golden. Medium to large size; skin golden yellow, sprinkled with gray dots; flesh crisp, tender, juicy, sprightly, very good to best. Tree is very hardy and productive, and one of the best fillers, as it comes into bearing very early. Grimes Golden is one of our few best sorts. December to April.

Hubbardston Nonesuch.

Large, striped yellow and red; flesh yellow, juicy and tender, with an agreeable flavor of acidity and sweetness; of the finest quality and very valuable; strong grower; bears well every year; comes into bearing early. You will find it a splendid orchard tree for New York and Pennsylvania. November to March.

DANVILLE'S PIONEER WHOLESALE NURSERIES

Jacob's Sweet. Large, yellow with red cheek. Excellent quality and good keeper. December to January.

Jonathan. A beautiful red apple, highly flavored and of excellent quality, being tender, juicy, spicy, and rich—a splendid family sort and highly profitable for market. Tree long-lived, productive, and an early bearer. Will keep well without special care and also stand much handling. November to January.

King. (King of Tompkins Co.) When you see in the market apples of extraordinary size, beautiful red in color, specimens that attract the attention of everybody who passes by, you may know that these are the King apple, an appropriate name since it is of the largest size and possessed of the greatest beauty. The market is never fully supplied with this variety, since its size and beauty make it in great demand. Tree a vigorous grower, good bearer and hardy. November to January.

Mammoth Black Twig. Resembles a large Winesap. Dark red. A very profitable variety to plant for market. It is productive and a long keeper. If a late winter apple is desired you will make no mistake in adding it to your list. December to April.

McIntosh Red. An exceedingly valuable, hardy, attractive apple; good size; nearly covered with red. Flesh white, fine, very tender, juicy and refreshing. Tree hardy, vigorous, a good annual bearer—comes into fruiting early, yielding large crops. Mr. Maloney recommends this variety to our patrons as one of the best used as a filler. The hardness of both tree and fruit and its great early bearing qualities, coupled with its elegant color and splendid flavor, makes it a most valuable apple. Do not overlook McIntosh when selecting varieties for commercial orchard planting; has no superior as an early winter apple. October to January.

Newtown Pippin. Medium to large; yellow delicious flavor; a long keeper. Known throughout Virginia as Albemarle Pippin. November to May.

Northwestern Greening. A round, large, attractive, greenish yellow apple; flesh fine grained, juicy, firm, good quality. October to April.

Northern Spy. A hardy, large, red, winter apple. Flesh juicy, rich, crisp, tender, aromatic, of good flavor. Tree very healthy, strong grower, rugged. Blossoms very late, escaping frosts. Its large size, handsome appearance and superfine quality give it first rank for fancy trade, and when well grown and properly packed, it sells for higher prices than any other winter apple. It retains its crispness and high flavor well to the end of its season. Dec. to Mar.

Rhode Island Greening. This apple has a recognized standing, both in domestic and foreign markets and sells readily for good prices. It is regarded as the very best cooking apple grown and also excellent for dessert use. Size large. Flesh yellowish, firm, fine grained, crisp, tender, juicy, sprightly sub-

acid, very good. Skin grass-green to yellow, sometimes with brownish-red blue. Tree large, strong, vigorous, wide spreading. Ripens in December, keeps until April.

Rome Beauty. Large, round; mottled and striped in different shades of red; flavor and quality way above the average; appearance and size are its valuable points; always sells and always brings good prices. With an established reputation due to real merit. Good grower; blooms late; bears heavily every year; is adapted to a wide range of soils, elevations and conditions. In Ohio, Pennsylvania, New York, West Virginia and Maryland, will make more money than some of the sorts which are now a large part of the total number of trees in commercial orchards. Reliability, due to being frost-proof, strong-growing and sure-bearing, make it a favorite with the grower.

Roxbury Russet. Medium to large. Surface rough, greenish covered with russet. Tree free grower, spreading; a great bearer. Keeps until June. Its great popularity is its productiveness and long keeping. Dec. to May.

Smokehouse. Fruit medium to large, uniform size and shape. Color yellow or greenish mottled with rather dark red, sometimes deepening to a solid bright red. Oct. to Mar.

Spitzenburg. (Esopus.) Unequalled for its high rich flavor, color deep red; flesh yellow, crisp, rich and excellent. Dec. to Mar.

Stark. Large, striped, mild, subacid, good. Valuable as a keeper. Jan. to May.

Stayman's Winesap. Medium to large, attractive; green and yellow, almost hidden by dark red stripes; flesh yellow, not in the least mealy; plenty of juice; quality the finest. Tree a quick and large grower, bears young, often producing a barrel to a tree when five years old. Bears every year, crops uniformly heavy. You cannot find a better sort, either for bearing habit, size of fruit, looks or quality. Except at the highest elevations, is almost always our most desirable apple for east of the Mississippi. Do not hesitate to plant Stayman's Winesap. Dec. to Apr.

Sutton Beauty. Tree vigorous, upright, spreading, fruit uniform in size and shape, fine grained, crisp, tender, very good. Color bright red striped with carmine. Nov. to Mar.

Tolman Sweet. Medium size; color, light yellow; flesh white, firm, rich, and very sweet. Excellent for winter baking. This is the old favorite, highly prized for baking, etc. Productive, an early bearer, long keeper. Nov. to Apr.

Twenty Ounce. Very large, yellow striped, red, fine quality apple; good keeper. Tree vigorous grower, productive. Oct. to Jan.

Maloney Bros. & Wells Co.

DANVILLE N. Y.

Wagener. (Red Winter Apple) Wagener is one of the most beautiful winter apples ever grown. It is of the highest quality, the flesh being crisp, tender and aromatic. We know of no apple possessing greater beauty or of finer quality than the Wagener. It succeeds well East and West. No orchardist's list of varieties can be complete without this beautiful and superior flavored apple. Of medium to large size; flesh firm, sub-acid and fine quality. Dec. to May.

Wealthy Apple. A patron writes that from 450 Wealthy apple trees five years planted, he sold \$600.00 worth of fruit, some trees yielding a barrel of apples. From one tree four years old he picked three bushels of apples. Wealthy is one of the best red early winter apples. Owing to its early bearing qualities it is planted largely as a filler. Its extreme hardiness makes it a valuable variety for the Eastern States and is considered to be one of the best all around early winter apples to grow. Fruit large, roundish; skin smooth, oily, covered with a dark red. Flesh white, tender, juicy, vinous, sub-acid; quality very good. This variety is particularly valuable for cold climates because the tree is very hardy. Wealthy is being planted largely for commercial purposes as a filler in many sections. Oct. to Jan.

Winesap. Large, roundish, oblong; deep red color, with a few streaks and a little yellow ground appearing on the shady side; flesh yellow, firm, crisp, with a rich, high flavor; quality very good, and highly esteemed in the South and Southwest. Dec. to May.

Winter Banana. Fruit large size, perfect in form; golden yellow, and beautifully shaded and marbled with bright, crimson red; flesh lemon-yellow, fine grained, sub-acid, rich, aromatic flavor, and of the highest quality. A good keeper. Tree remarkably strong grower, and on account of its great hardiness, will thrive in any climate. Its early bearing is something simply wonderful, generally producing a fine crop the second year. A valuable market variety. Very popular especially in New York and Pennsylvania. Nov. to Jan.

Wolf River. Fruit is very large, some specimens weighing 27 ounces; flattened, conical,

highly colored. An excellent cooking apple. Sept. to Dec.

York Imperial. A fine, hardy, large, red, winter apple; succeeds over a wide range of country. It comes into bearing at four years from planting, bears regularly and heavily. The fruit is of medium size, skin yellow and almost wholly covered with two shades of red, the darker one disposed in distinct stripes. Splendid variety for Pennsylvania. Nov. to Feb.

Best Hardy Crab Apples

General Grant. Large, round, yellow, covered with stripes of red, and when exposed to the sun, turning quite dark; flesh white, fine grained. Sept.

Hyslop. Fruit large, deep crimson; produced in clusters; flesh yellow, sub-acid; and popular on account of its large size, beauty and hardiness. Oct.

Transcendent. This is probably one of the best of all crab apples, is popular over the entire country. It is perfectly hardy everywhere and an immense bearer, yielding large crops every year. It is also a rapid grower and often bears fruit three years after planting. The fruit of this crab is held in great esteem by housewives for making jelly. Fruit, bright yellow, striped with red. Sept. to Oct.

This is the Way Maloney Trees Transplant

Egg Harbor, N. J.

Gentlemen:

I beg to advise that 300 trees purchased from you spring 1913-1914 are doing fine except 3 trees which started and died later. I think that this is a good record, and trust that all your patrons are as well pleased as I am. I remain,

Yours respectfully,

ALEX. MICHEL.

We will allow a 6% Discount on all cash orders received throughout the season or its equivalent in stock.—Your selection. Order Early.

For the convenience of our customers, we have printed in heavy type the names of the best and most profitable varieties.

Peach Growing is Today a Great Industry, in all probability more peaches are being planted annually than any other fruit. The comparative ease with which Peach trees may be cultivated, their freedom from disease, the short period before they come into bearing, together with the wonderful demand for the fruit, and the facility with which it may be shipped to markets, make peach growing extremely profitable.

Soil. Peach trees will succeed on any kind of rich soil, but will not thrive on clay, nor damp, low land.

Admiral Dewey. Free, good size. Flesh yellow, excellent quality. July 1st.

Alexander. Medium, greenish white, nearly covered with rich red, melting, juicy, sweet. July 1st. Free.

Belle of Georgia. Very large white Peach with red cheek. The flesh is white, firm and of fine flavor. Tree rapid grower and very productive. July. Free.

Capt. Ede. A handsome yellow peach, with a faint blush of carmine, resembles Elberta. Fine quality and a splendid shipper. Early Sept. Free.

Carman. Fruit large, color creamy white or pale yellow with deep blush; flesh tender, fine flavor and quite juicy; very hardy and productive every year. This is a favorite variety with many growers, as it is one of the most profitable varieties ever introduced. The fruit stands shipping so well that it always reaches market in prime condition, and its handsome appearance causes it to bring the highest prices. Early Aug. Free.

Chair's Choice. Has no superior in quality and flavor, and for profit is without a rival; large, yellow, free, rich in color, flesh very firm, ripens after Smock; great bearer. Oct. Free.

The average yield per acre of a good peach orchard is 600 crates at 80c=\$480

Crawford's Late. Fruit of large size; skin yellow, or greenish yellow, with dull red cheek; flesh yellow; tree vigorous, moderately productive. Last of Sept. Free.

Crawford's Early. A magnificent large, yellow peach, of good quality. Tree vigorous and very productive. Its fine size, beauty and productiveness make it one of the most popular sorts; no other variety has been so extensively planted. First of Sept. Free.

Champion. Fruit large, beautiful in appearance; flavor delicious, skin creamy white, with red cheek; valuable for commercial orchards, extreme hardiness and splendid quality make it a favorite. Late Aug. Free.

Crosby. Medium size; bright orange yellow streaked with carmine. One of the best standard market sorts. First of Sept. Free.

Engle's Mammoth. Large, round, suture slight; yellow with red cheek; flesh yellow, stone small, free; sweet, rich, juicy. Sept. Free.

Early Rivers. Large, light straw color with delicate pink cheek; flesh juicy and melting. Early Aug.

Deal Direct the Catalog Way and Maloney Service Will Satisfy You

Springtown, Pa., May 15, 1915
Maloney Bros. & Wells Co., Danville, N. Y.
Gentlemen:

The trees arrived all O. K. I have been a planter of trees and shrubs for the past twenty years, and never bought a better lot of trees for the price I paid you. If you continue to ship stock to your customers, as you have shipped to me without seeing them, there certainly will be no kick coming.

Respectfully yours, F. P. MILLER.

This illustration shows what success I have had with the 1200 Peach trees purchased of you 1914.
John H. Shellenberger,
McAlisterville, Pa.

FREIGHT AND EXPRESS RATES

Note table of freight and express rates on page 8. Our largest size first class trees can be shipped by freight anywhere east of the Mississippi for one cent per tree. Small orders should be sent by express which may be done for about two cents per tree. If the tree agent advises different consult your freight or express agent.

DANVILLE'S PIONEER WHOLESALE NURSERIES

Elberta. The leader of all peaches and the greatest commercial variety on the market; 50 per cent of the peaches planted are Elberta. In all probability no peach will succeed over so wide a range of territory as this kind. It will thrive where any peach can be grown. A beautiful peach of good quality, not only the best orchard variety, but also valuable for planting in the garden. Elberta is hardier in bud than many varieties, therefore a more uniform cropper. It is large, yellow, with red cheek, juicy and high flavor; flesh yellow, free stone. Season medium early, following quick upon Early Crawford. Early Sept. Free.

Fitzgerald. It is one of the hardiest peaches, both in bloom and tree; very prolific, large size. First of Sept. Free.

Foster. Large, deep orange red, becoming very dark red on the sunny side; flesh yellow, very rich and juicy, with sub-acid flavor; earlier than Early Crawford; very handsome. Last of Aug. Free.

Greensboro. A valuable variety; color greenish-white, shaded and splashed with dark red, very hardy and not so subject to rot as are most early varieties. Owing to extreme hardness of both tree and bud we recommend it for sections where other varieties do not succeed. Late July. Free.

Hill's Chili. Fruit medium size, oblong; skin yellow, shaded with dark red; flesh yellow; very rich and sweet. First of Sept.

Hiley.—An exceedingly handsome creamy white peach of large size, with a delightful red cheek; flesh is white, tender and juicy, commercially proving one of the most profitable. Early July. Free.

Kalamazoo. Large, golden yellow, with crimson cheek; flesh thick yellow, superb quality, small pit. Strong grower, early bearer, hardy and productive. First of Sept. Free.

Mountain Rose. Large, red, white flesh, juicy and excellent. Early Aug. Free.

Niagara. Tree hardy, healthy in leaf and bud and bears abundantly. Fruit large, oval, yellow with brilliant red cheek. The stone parts freely from the flesh. Flavor rich and delicious, far ahead of Elberta in this respect. It is indeed a rival for this famous peach. Season is medium early, coming in just before Elberta, overlapping it one week. Last of Aug.

Old Mixon Free. Large, roundish, yellowish, white, marked with red. Early Sept.

Salway. Large roundish ovate yellow, with a crimson cheek; flesh deep yellow, red at the pit; sweet, juicy, good. Late. Valued as one of the best late peaches for market. Oct. Free.

OUR PEACH TREES

5-6 ft.

4-5 ft.

3-4 ft.

Smock Free. (Beers' Smock.) Fruit large; oval; skin orange yellow, mottled with red; a good market sort. Last of Sept.

Triumph. Earliest yellow-flesh peach, with good eating and shipping qualities, sure and abundant bearer; strong, vigorous grower. First of Aug.

Willett. Bright yellow peach covered with red. Flesh of this peach is rich and juicy and of very good quality.

Wonderful. Large Peach uniform in size and shape. Rich golden yellow color nearly covered with bright crimson. Middle of Oct.

Yellow St. John. Of medium size, orange yellow with a red blush on sunny side; flesh tender, juicy and quality very good. Tree is a strong grower and bears heavy crops every season. Reaches the market at a time when the demand for early fruit is at its height, when properly handled, the best prices can be obtained. Middle Aug. Free.

Dwarf Fruit Trees

Maloney Dwarf apple trees planted spring 1915 and photographed August 3rd, 1915.
C. H. REYNOLDS, Williamstown, W. Va.

Note the pleased expression. Dwarf trees bear young and large fruit.

I am more than pleased with the fruit my trees are producing. A. A. WADE, Howe, Ind.

Dwarf fruit trees bear larger, better fruit, bear several years earlier, and produce more returns for a given space than standard trees. This is all true and there are even more important points. The low, broad heads are within reach, so that apples or pears can be easily picked. You can plant dwarf trees in your garden and still grow strawberries and most vegetables. With dwarfs some varieties will bear

the first year, all will the second and bear a full crop the fourth year.

Dwarf Apple trees are budded on Paradise or Doucin stocks, and Dwarf Pear trees are budded on Quince stock. They will succeed in many places where standard trees fail. In a word, they are the kind of Dwarf trees that will put their strength into fruit instead of wood.

Champion. A large, late-ripening sort, that produces good and constant crops. One of the best for sections not subject to early frosts. Last of Oct.

Meech's Prolific. Fruit is large, orange yellow, of great beauty and delightful fragrance. Tree a vigorous grower and immensely productive. Ripens between the Orange and Champion. Last of Oct.

Orange. The best of the older varieties, still more extensively cultivated than any other. Every one is acquainted with the Orange Quince, a good old variety that never disappoints the planter; good for home use and for market. Its large golden yellow fruit of fine quality is to be seen in more or less quantities in nearly every garden or orchard every season, as it rarely fails to produce a crop. Ripens in Oct.

Rea's Mammoth. Large, rich, golden yellow. Sure to ripen even in Northern latitude. Very hardy and productive. Oct.

The Famous Orange Quince

Introduced by Fred Grover, Pultneyville, Wayne Co., New York

WHOLESALE PRICE		HEIGHT	EACH	TEN	HUNDRED
Largest Size	1 Year	3 ft. and up	.35	\$3.00	\$22.50

It is generally conceded that there are two or three strains of Orange Quince and that which is grown by most nurserymen is inferior in many ways—flavor, productiveness, size and hardiness—to that of the famous Orange Quince grown by Fred Grover of Pultneyville, Wayne Co., New York.

Many of the most prominent fruit growers pronounce it to be, beyond any question of doubt, the very best Orange Quince grown in the United States. We, fully realizing how thoroughly our customers would appreciate having an opportunity to plant trees of this money making variety, made arrangements with Mr. Grover to secure scions from his orchard, and we now offer trees propagated in our upland nurseries from this superior strain. Fruit large, fine grained, almost round in shape, bright golden yellow. Being very firm it stands handling and shipping well. Season Sept. 1st to 15th.

For the convenience of our customers, we have printed in heavy type the names of the best and most profitable varieties.

How to Plant—For your information cherry roots must not be given much sun or wind exposure—either are just as harmful as a heavy frost. You would not think of leaving them out over night uncovered. It is just exactly as necessary to protect them from sun and wind.

Sweet Cherries

BLACK TARTARIAN

Black Tartarian. This fine old variety produces immense crops of very large, purplish black fruits of mild, sweet, jelly-like consistency. The tree makes a beautiful, erect growth. Late June and early July.

Bing. This valuable new black cherry succeeds everywhere. Tree very thrifty and upright grower, very hardy and productive, flesh very solid, flavor of the highest quality, a fine shipping and market variety. It is one of the most delicious sweet cherries. This valuable cherry should be followed by Lambert, which is later in ripening. Both are grand cherries. July.

Centennial. A large, light colored sweet cherry; flesh very firm thus making it one of the most valuable of the sweet varieties for shipping. Resembles Napoleon in appearance, of which it is a seedling, but it is larger and more oblate in form. Tree a handsome grower. Its sweetness is very pronounced, being exceedingly sugary. July.

Dikeman. Fruit large, black, firm, of excellent quality, fine keeper and shipper. Early Aug.

Governor Wood. One of the best cherries; very large, light yellow, marbled with red; juicy, rich and delicious; tree healthy and a great bearer; hangs well on the trees; vigorous. Last of June.

Lambert. A fine sweet variety originating in Oregon, and one of the largest of all cherries, dark purple red, turning almost jet black when ripe. Flesh firm, rich, juicy, tree rugged, strong grower and an enormous bearer. The growing of the sweet Cherry is a great industry only fairly well begun. There is an enormous market for the fresh fruit and when canned or preserved the markets of the world are open to the producer. Late July.

Napoleon. Tree medium size, erect with roundish head, fruit borne generally in twos, very large oblong cordate, light lemon yellow with red cheeks in the sun. Flesh very hard, brittle, colorless, reddish at the stone. Good, excellent bearer. Ripe about June 20th.

Schmidt's Biggarreau. The fruit is of very large size, of a deep mahogany color. The flesh is dark, tender, very juicy with a fine rich flavor. Fruit grows in clusters. It is an excellent shipper and brings good money on the market. July.

Windsor. A splendid, large, liver-colored Cherry that hangs a long time and rots but little. The flesh is remarkably firm and good, the tree very hardy and fruitful. Exceedingly valuable for late market and home use. July.

Yellow Spanish. Large, pale yellow, with red cheeks; firm, juicy and excellent, one of the best light-colored cherries; vigorous and productive. Last of June.

**A TRIAL ORDER IS ALL WE ASK
OUR GOODS WILL DO THE REST**

Dodd, Ind.
Nov. 18th, 1916.

Maloney Bros. & Wells Co.,

Gentlemen:—Last April we received 1500 trees from you and owing to freight congestion they were nearly six weeks on the road and since only a few failed it surely speaks highly for the vitality of your upland grown trees. Every tree was a select, as a matter of fact, all the stock shipped us at different times could not be improved upon. This fact together with your broad guarantee makes a mighty good protection for the orchardist. Hereafter we will not consider bargain prices which are generally offered by unreliable houses when we can buy your guaranteed, true to name, selected stock at such reasonable prices. We now have 70 acres of orchard.

Very truly yours,

I. H. Odell & Sons.

MALONEY HARDY UPLAND TREES ARE INCOMPARABLE

Sour Cherries

Baldwin. Fruit very large, almost round, dark red, slightly sub-acid, the sweetest and richest of the Morello type. Remarkable for earliness, quality, vigor, hardiness and productiveness. June.

Dyehouse. A hardy and valuable cherry. The earliest cherry of fine quality. Often bears at two years old, and has the appearance of being covered with a purple cloth, such is the abundance of the fruit. Has the smallest pit of any cherry known. For tarts, pies and especially for canning it has no superiors among cherries. Early June.

Early Richmond. This is one of the most valuable and popular cherries and is unsurpassed for cooking purposes. This hardy cherry fruits on young trees soon after planting. It is the good old variety that yields such marvelous crops in the gardens. The most hardy of all varieties, uninjured by the coldest winters. Tree slender in growth, with a roundish spreading head exceedingly productive. Fruit is medium size, round and dark red. The flesh tender, juicy, and sub-acid. Ripens in June.

English Morello. Without doubt one of the most valuable of this class. Easily grown, generally producing a heavy crop. Fruit dark red, quality good, with a rich, acid flavor; late. Tree very hardy, for extremely cold latitudes. August.

Louis Phillippe. Large and beautiful fruit of blackish red, flesh tender, mildly acid, good to best. Mid-July.

May Duke. Large, red; juicy and rich; an old, excellent variety; vigorous, productive. June 15.

Montmorency. A beautiful, large, red cherry; much larger and firmer than Early Richmond, and fully ten days later in ripening. Being extraordinarily prolific and very hardy, it can be recommended as a variety of great value. Valuable for canning and preserving. A patron writes that six years ago he planted fifty Montmorency cherry trees from which he has just harvested \$150 worth of fruit. One acre of Montmorency cherries, owned by a neighbor, has returned an average annuity of over \$600 for the last ten years. This cherry is in great favor wherever cherries are grown. With such a heavy demand for this variety, we would suggest that you order early. Last of June.

Olivet. A new Duke of French origin. Unlike most others of this class, it is said to be very early and to ripen over a long period. Fruit very large. June.

Ostheim. A hardy Cherry from Russia. It has been tested in the severest winters of Minnesota, and has been found perfectly hardy. Fruit large. July 15th.

Vladimir. Hardy, strong grower, very productive, sub-acid, of excellent quality, juicy. July 15.

Wragg. Much like English Morello. More productive and excels in size, yield and quality. One of the hardiest Cherries and has produced annual crops at the northern-most limit of Cherry culture. Aug.

We will allow a 6% Discount on all cash orders received throughout the season or its equivalent in stock—Your selection. Order early.

Plums are hardy and grow vigorously in nearly all sections, succeeding on any soil that grows good corn or potatoes. Plum trees are planted about as far apart as peaches; that is, from 15 to 18 feet apart each way. Many growers prefer to plant them closer one way than the other, and eventually to stop cultivation in one direction. If this system is used they may be placed 18 to 20 feet apart one way, and from 10 to 12 feet the other way. The trees are pruned the same way that apple trees are, when planted.

Bradshaw. A very large and fine early plum, dark violet red, juicy and good. Very productive; valuable for market. The tree is very hardy and vigorous. Middle of August.

Felleberg Prune. A fine prune, oval; purple; flesh juicy and delicious; parts from the stone; fine for drying; tree very productive. Early Sept.

German Prune. Medium; oval; purple or blue; juicy, rich, fine. Tree vigorous and very productive. One of the best. September. Sells for higher prices in market on account of high quality. A leading favorite. There is no easily grown fruit that gives greater or more certain profit than the German Prune. Early Sept.

Grand Duke. One of the best late plums for market, as large as Bradshaw, of same color, entirely free from rot. Last of September.

Gueii. This is one of the newer varieties originating in New York state. The color is a dark purple. The flesh is firm, sub-acid and agreeable. Size large. September.

Imperial Gage. Rather large; oval; greenish; flesh juicy, rich and delicious, parts from the stone. Tree a vigorous grower; very productive and one of the best of plums. Middle of August.

Lombard. It is a handsome reddish plum, the flesh yellow, juicy and pleasant. It is an excellent variety and can be relied on for a crop when other varieties fail. August.

Moore's Arctic. Fruit grown in clusters. Color dark blue or nearly black when fully ripe. Dr. Hoskins says this is the hardest plum he has tested. September.

Maloney Prune. We are offering it this year at same prices as other varieties. Season extending from September 15th until freezing weather. Color dark blue; flesh yellow and delicious; freestone; heavy annual bearer. It certainly is a marvel—just what the orchard man has been looking for.

Niagara. Red, large size, making an attractive appearance in market, and possesses good shipping qualities. It bears enormous crops of fruit. Tree is an upright grower, vigorous and healthy. Middle of August.

Reine Claude. (Bavay's Green Gage)—Roundish, oval, greenish, marked with red in the sun; a great favorite. September.

DANSVILLE'S PIONEER WHOLESALE NURSERIES

Shipper's Pride.

Large, nearly round; dark purple; quite juicy, sweet; splendid shipper and marketer; moderate grower; productive. Originated in north-western New York. September.

Shropshire Damson.

One of the favorite Damsons. Fruit oval; tree a good grower and enormously productive; fruit of medium size produced in thick clusters or groups, dark purple color, esteemed for preserving. October.

Thanksgiving Prune. Very productive, good quality and long keeper. It will keep for weeks and months after picking like an apple. It is extremely hardy, as a matter of fact, will succeed in any state east of the Rockies; absolute proof against severe winters. Mr. Maloney especially recommends this variety to you. October.

YORK STATE PRUNE. $\frac{1}{3}$ of Natural Size

York State Prune. One of the largest, best in quality and most productive of all prunes; large size, color dark blue, covered with purple black, delicious; originated in Dansville, N. Y.; a vigorous grower and hardy. Is being planted extensively and is considered the best for commercial purposes. Last of August.

Japan Plums (Continued.)

Climax. Tree extremely vigorous, upright, with strong branches and very large leaves. Productive as Burbank, about as large and usually two or three weeks earlier. July.

Red June. The great early market Plum. Medium to large; deep vermillion red, with beautiful bloom; very showy; flesh light lemon-yellow, firm, slightly sub-acid, delightful. It is the best in quality of any of the early Japanese plums, free from rot. Ripens in early August.

Wickson. This, largest of the Japan Plums is superb in every way. The color is bright cherry-red, covered with a light bloom; the pit is small for so large a fruit, the flesh is thick, sweet, tender and rather dry, indicating good keeping and shipping qualities. The fruit sells almost on sight. September.

SHROPSHIRE DAMSON

Japan Plums

Abundance. One of the best Japan Plums. The tree a rapid grower, healthy, comes into bearing remarkably young and yields abundantly. Fruit of medium size, large when thinned; amber, with markings of red; juicy, sweet, of good quality when well ripened. May be picked when it begins to color; will keep a long time. Aug.

Burbank. is decidedly the best of Japan varieties unsurpassed for beauty and productiveness, as well as a very hardy tree with foliage so perfect as to contribute in an essential degree to its health. One of the grand points about the Burbank is that it succeeds over a wide range of our country, and will stand the most severe winters. Fruit large, oval, with a reddish purple skin; flesh yellow, juicy and good. A good one. August.

We will allow a 6% Discount on all cash orders received throughout the season or its equivalent in stock.—Your selection. Order Early.

For the convenience of our customers, we have printed in heavy type the names of the best and most profitable varieties.

The planting of Pears is on the increase, so much so that it has been difficult for us to supply the demand. This is especially true of Bartlett, Clapp's, Kieffer and Seckel which are the leaders and in the order as named.

Soil. Pears will succeed best in a clayey soil, although any good heavy soil will do, but avoid planting on sandy loam.

DANSVILLE'S PIONEER WHOLESALE NURSERIES

Bartlett. Large, coloring when fully ripe to waxen yellow with red blush; juicy, melting, highly flavored, a most delicious fruit; tree bears early and abundantly. We have sold many large orchards of this variety. The fruit ripens just at a time when there is but little competition; in fact, there is no pear ripening at the same time that is in the Bartlett class. It might surprise you to know—nevertheless it is a fact—that there are more of this variety planted than all other kinds of pears combined. That speaks for itself, does it not? You will never make a mistake when planting Bartlett. Sept.

Beurre D' Anjou. This is one of the best known, most popular and profitable late pear. The tree is a vigorous grower, hardy and prolific. The pears are of large size, green in color, but often yellowing when thoroughly ripe. They are very juicy and luscious and of the best quality. For late fall and very early winter use, we have no better variety. Oct. to Jan.

Beurre Clairgeau. Large; light yellow, shaded with crimson and russet. Flesh yellowish, melting. Free early, abundant bearer. Nov. to Jan.

Beurre Bosc.

A large and beautiful russet pear, very distinct with a long neck; melting or nearly so, highly flavored and delicious, bears well, ripens in October. The demand has been so heavy we have been unable to offer two year trees of this variety, selling all at one year old. We will have an exceptionally splendid lot of sturdy one year buds 3 feet and up for this spring's delivery. **Wholesale price 29c each, \$2.50 per 10, \$20.00 per 100. 1 year only.**

Clapp's Favorite. This is without doubt the most productive Pear on the market. A superb large, long yellow Pear, richly flushed with russet-red next the sun. The flesh is fine-grained, juicy, melting and buttery. A cross between Bartlett and Flemish Beauty; earlier than Bartlett and resembling Flemish Beauty in growth. It is as hardy as the Flemish Beauty;

a fine grower and extremely productive. Early Aug.

Duchess D' Angouleme. A most dependable cropper, often fruiting the first season after planting. Fruit large, frequently weighing a pound. A dull greenish yellow, spotted russet, flesh white, rich and good quality. An all around profitable market pear. Oct. and Nov.

Flemish Beauty. Considered one of the hardiest and best for the northwest in which location it bears great crops of perfect fruit. Sept. and Oct.

Howell. Large, yellow, with red cheek; early bearer and productive. September and October.

Kieffer. Large, rich, golden yellow, sometimes tinted red on the sun-exposed side; fair quality, excellent for canning. It has become a profitable market variety on account of its good shipping and keeping qualities. To properly ripen should remain on the trees until leaves begin to fall, then gather carefully and allow to ripen in a cool dark cellar, or other place of even temperature. Tree a most vigorous grower, an early bearer, one of the most resistant to blight, very prolific, and widely planted throughout the country. The tree is so hardy and free from insect pests as to give it greater value than most other varieties. The fruit is of high color and great beauty and sells more readily than fruits of better quality. Oct. to Nov.

Koonce. A very popular early variety. Fruit, large, yellow, one-half nearly covered with red. Does not rot at the core. Tree vigorous, hardy and

upright grower. Very productive and a good shipper. July.

Lawrence. Medium to large, golden yellow, with melting, aromatic flesh. Unsurpassed as an early winter Pear. The tree is hardy, healthy and productive, bearing large crops annually. Nov. and Dec.

Maloney Hardy Upland Grown Pear Trees Are Practically Immune From Blight.

The Average Yield Per Acre of a Good Pear Orchard is 500 Boxes @ \$1.25=\$625.00

KIEFFER

Maloney Bros. & Wells Co.

DANVILLE N. Y.

6-7 ft. 5-6 ft. 4-5 ft.
MALONEY TWO YEAR PEAR TREES

Sheldon. A large, round, russet and red pear of very fine quality, melting, rich and delicious. Tree vigorous, erect and handsome, bears well and should be more largely planted. Oct.

Seckel. A beautiful and delicious little Pear that is the standard of excellence in its class. One of the richest and highest flavored Pears known, always in demand for desserts and luncheons and better known than any Pear of its class. The tree makes a somewhat slow but stout and erect growth. Sept. and Oct.

Vermont Beauty. This is one of the newer varieties, but one which should not be overlooked when picking out the different kinds you want to set. The tree originated in Northern Vermont and is very hardy and thrifty. October and November.

Wilder. One of the very earliest pears, attractively colored and of excellent quality; this new variety always finds a sale in market and is largely grown by commercial orchardists. Of medium to large size, irregular, bell-shaped, but with smooth surface; pale yellow with shadings of russet-red. The tree bears good crops early and annually. Early August.

Bargains in Little Fruit Trees

Some nurserymen are offering this size tree to planters, stating such trees are especially desirable for orchard planting.

This is an erroneous statement for such small trees do not possess much vitality. This low vitality is due solely to the fact that they were shaded in the nursery row and made a stunted growth, therefore success with trees of this character is only assured by thorough, and we might say constant, cultivation and this is expensive. Then again, if you have a dry season the first year after planting, you are very likely—owing to the low vitality—to lose a big percentage.

We desire to acquaint our patrons with the possibilities. When you see firms advertising first class trees for 10c each do not be led to believe you are getting a No. 1 tree (far be it from it). You might better add a little more money and buy 4 to 5 ft. or 5 to 6 ft. trees. However, if there are some customers who would rather nurse along the 3 to 4 ft. trees, we will supply them at the following prices.

PARCEL POST. First class 2-3 ft. Apricots can be sent by parcel post, postage prepaid for 25c each, \$2.00 per 10.

Beautiful and delicious fruit. In quality and appearance is between plum and peach, combining qualities of both. Ripening early, together with its delightful flavor makes it one of the most valuable fruits. Tree hardy as the peach. Requires about the same cultivation as the peach or plum. It ships well and commands a good price in any market. For drying and canning, it has no superior. The Russian varieties are quite distinct from the other European sorts; much hardier, earlier bearers and productive.

Alexander. Very hardy and immense bearer; fruit large; yellow, flecked with red; very beautiful, sweet and delicious. July.

Alexis. Very hardy and abundant bearer; yellow with red cheek; large to very large; slightly acid, rich and luscious. July.

Moorpark. One of the largest. Orange with red cheek; firm, juicy, with a rich flavor; very productive. August.

Both Large and Small Orders Receive Personal Attention

Scranton, Pa., Apr. 19, 1916.
Maloney Bros. & Wells Co.,
Gentlemen:—
Your trees came (6020). I just finished unloading them last evening. From every appearance they are fully up to my expectations. I wish to thank you for your prompt shipment and attention to this order.
Very truly yours,
Fleitz & Sproul Fruit Farms,
H. B. Howe, Mgr.

Hershey, Pa., May 22, 1916
Maloney Bros. & Wells Co.,
Gentlemen:—
I have just returned from Jewettville, N. Y., where I inspected the orchard set two years ago with trees supplied by you. These trees have made remarkable growth and are all that anyone could desire in vitality and appearance.
Sincerely yours,
W. L. Dubois.

Middleport, N. Y., May 2, 1916.
Maloney Bros. & Wells Co.,
Gentlemen:—
Fruit trees, Grapes, Norway Maples and Rose Bushes all came in splendid condition. Don't think there was ever a better lot of trees brought into our town.
Yours truly,
F. J. Swift.

Catawissa, Pa., Apr. 26, 1916.
Maloney Bros. & Wells Co.,
Gentlemen:—
I received my trees in very good condition. They are all planted and I think they are the finest lot of trees I ever saw planted for second grade. Their root system was grand and I don't see how they can help but grow.
Truly yours,
C. H. Williams.

Bristol, Pa., May 4, 1916.
Maloney Bros. & Wells Co.,
Gentlemen:—
I received your trees and shrubs that you sent me a few weeks ago and must say that they are the finest looking trees and shrubs that I ever saw. I thank you for your fine selection and if ever in the line again will not forget your nurseries.
Your satisfied customer,
James H. Stephenson.

Pawtucket, R. I., May 15, 1916.
Maloney Bros. & Wells Co.,
Gentlemen:—
The trees arrived in fine condition and the appearance of the lot has been a source of pleasure to me. The vines, trees, etc., were beyond my expectations and my appreciation I cannot express too fully.
Yours very truly,
Randolph Keppie.

33rd Year—The Merits of Varieties Offered Have Been Carefully Tested

Port Allegany, Pa., Apr. 26, 1916.
Maloney Bros. & Wells Co.,
Gentlemen:—
I want to tell you that I consider the shipment you sent me the best grade and better packed than any shipment that has ever reached me, and I also want to thank you for your promptness in sending my order. Next year I am coming to you for a larger order.
Yours very truly,
P. F. Bard.

Judson, W. Va., Apr. 22, 1916.
Maloney Bros. & Wells Co.,
Gentlemen:—
The trees you sent me were received in good shape, the 1035 Peach trees, 20 Cherry and 10 Baldwin apples. I am well pleased and thank you for your fair treatment.
I remain,
John P. Walker.

Highland, N. Y., Apr. 22, 1916.
Maloney Bros. & Wells Co.,
Gentlemen:—
Many thanks for the beautiful trees and prompt shipment, etc.
Very truly yours,
A. J. Koons.

Stockbridge, Mich., May 2, 1916.
Maloney Bros. & Wells Co.,
Gentlemen:—
I received the trees and am well pleased. They were in the best condition of any I ever bought. They certainly speak for themselves.
Yours truly,
George D. Stitt.

Middlebury, Vt., May 8, 1916.
Maloney Bros. & Wells Co.,
Gentlemen:—
The box of trees arrived today in fine condition. They certainly are a fine lot of trees, nicely branched and rooted and the neighbors who ordered with me are much pleased with theirs.
Yours very truly,
George W. Billings.

Bridgeport, Conn., Nov. 6, 1916.
Maloney Bros. & Wells Co.,
Gentlemen:—
I desire to thank you for the prompt attention you gave to my order. The trees were in fine shape when they came; all of them have good roots and are clean and healthy.
Yours truly,
Joseph Ratz.

WE WILL ALLOW A 6% DISCOUNT on all cash orders received throughout the season or its equivalent in stock.—Your selection.

C. O. D. TERMS. We will ship trees and plants C. O. D. providing 25% of the total of your order is sent in cash. If the order goes by express you pay the balance to your express agent upon arrival. If the order goes by freight you pay the balance at your bank, where you will also find Bill of Lading, which you present to your freight agent who will deliver shipment to you. **THE WISE BUYER ORDERS EARLY.**

Satisfaction Guaranteed or Money Refunded

Maloney Bros. & Wells Co.

DANVILLE N. Y.

CUTHBERT
Valuable Commercial Variety

Cuthbert. This is a valuable variety well tested throughout the country. It has given good results both from home use and market. Cuthbert is a good vigorous grower and possesses vitality necessary for a popular variety. It yields bountifully of large and beautiful bright red berries, which are easily picked and always command good prices. No fruit grower can afford to omit planting Cuthbert, and surely no person who has a garden should attempt to get along without red raspberries.

Wholesale Price, 10 for 45c, 100 for \$2.00, 1000 for \$13.00.

Loudon. Very hardy, yields 200 bushels per acre, bears best on strong clayey loam, but succeeds well on sand.

Wholesale Price, 10 for 45c, 100 for \$2.00, 1000 for \$13.00.

Marlboro (Red.) A very profitable, early market variety with large, light crimson fruits, of good size and flavor. The crop covers a period of four or five weeks in ripening.

Wholesale Price, 10 for 45c, 100 for \$2.00, 1000 for \$13.00.

St. Regis. (Everbearing) This promises to be the most valuable addition to the list of Red Raspberries. The only variety known that gives a crop of fruit the same year they are planted, and two crops a year thereafter. Plants that are set early in the spring will give a small crop of fruit the fall following, and the next spring a big crop equaling that of any Red Raspberry known. In size, quantity and quality, to say nothing of its fall-bearing qualities, it is ahead of anything we know of. About the middle of August it commences to set fruit on the young canes, and bears continuously from then until frost. The berries are large, beautiful and attractive. If you have failed with every other variety of Raspberry, either North or South, plant St. Regis and succeed.

Wholesale Price, 10 for 50c, 100 for \$2.25, 1000 for \$15.00.

We will allow a 6% Discount on all cash orders received throughout the season or its equivalent in stock.—Your selection. Order early.

Freight and Express Rates

Note table of freight and express rates on page 8. Our largest size first class trees can be shipped by freight anywhere east of the Mississippi, for 1c per tree. Small orders should be sent by express which may be done for about 2c per tree. Smaller grades cost less.

We will allow a 6% Discount on all cash orders received throughout the season or its equivalent in stock—Your selection. Order early.

Conrath, Early Black. In Conrath we have united vigor, hardiness, large size and productiveness; qualities that will give it a foremost rank.

Cumberland New Black. This new berry is a very valuable acquisition. With its greatly superior size it combines the equally valuable characteristics of great firmness, splendid quality and wonderful productiveness. Fruit very large, firm. Mid-season.

Gregg Black. Of good size; fine quality, very productive and hardy. It takes the same position among black caps as Cuthbert among the red sorts. No one can afford to be without it. The standard black cap by which others are judged.

Kansas Black. This variety is a strong, vigorous grower, standing extremes of drought and cold, and bearing immense crops. Early. Berries size of Gregg, of better color; jet black and almost free from bloom; firm, of best quality, presents a handsome appearance, and brings highest price in market. The average yield of an acre of Kansas in dried raspberries is 500 pounds. The average price, year by year, is twenty cents per pound.

Plum Farmer Black. This very large and productive black raspberry has been thoroughly tested in western New York where it is a great favorite for market or home use. It is covered with a grayish bloom, like the bloom on a grape, which makes it very attractive in appearance. It ripens very early and quickly. The fruit is enormously large.

Purple and Yellow Raspberries

Columbian Purple. A strong grower, unexcelled for productiveness and desirable for canning. Fruit very large, purplish color, rather soft; rich, sprightly flavor.

Wholesale Price, 45 cents per 10, \$2.00 per 100, \$13.00 per 1000.

Golden Queen, Yellow. Very large, hardy, vigorous, and productive. No garden should be without it.

Wholesale Price, 45 cents per 10, \$2.00 per 100, \$13.00 per 1000.

Dallas, Pa., Apr. 28, 1916.

Maloney Bros. & Wells Co.
Gentlemen:—

Received the 2400 berry bushes. I must say they are the finest lot I ever saw. You will receive all of my orders in the future.

Yours truly,
Floyd E. DeWitt.

Blackberries

Wholesale Price of Strong Plants Well Selected Varieties

50c per 10

\$2.50 per 100

\$18.50 per 1000

We will allow a 6% Discount on all cash orders received throughout the season or its equivalent in stock—Your selection. Order early.

Eldorado. The vines are very hardy and vigorous, and their yield is enormous. The berries are large, jet black, borne in large clusters and ripen well to-

gether; they are very sweet, melting, have no hard core and keep for eight or ten days after picking with quality unimpaired.

Mersereau. Remarkably strong grower, upright, producing stout, stocky canes. An enormous producer of extra-size berries, which are brilliant black and retain color; extra quality; sweet, rich and melting, without core. Ripens very early.

Minniewaska. This wonderful, hardy, productive, good blackberry has not been forgotten by us, or our old patrons. Its principal points are hardiness, excellent quality, earliness, and continued bearing and productiveness.

Snyder. Extremely hardy, enormously productive; medium size, no hard, sour core; sweet and juicy. Ripens early.

Blower's. Claimed to be the hardiest, most productive, of finest quality and to bring the highest market price.

PARCEL POST. Raspberries and Blackberries can be sent by parcel post, postage prepaid, for two cents per bush extra.

Gooseberries

Plant in good rich soil and give a liberal dressing of manure every season. Regular pruning every year is essential for the production of fine fruit.

Downing. Largest and best of all native American varieties. This valuable variety originated with Charles Downing, greatest of all pomologists. The value of Downing lies in its large size, fine quality, beautiful appearance, vigorous growth, and freedom from mildew. Downing is free from spines, of a transparent color, tending to yellow; bush upright, keeping the fruit from the sand. Enormously productive.

Wholesale Price, 2 year bushes, 15 cents each, \$1.20 per 10, \$8.50 per 100.

Industry. Marvelously productive and bears second, if not the first year planted. The fruit is of large size, color dark red. When making out your order, do not fail to include some of this variety, as it has been thoroughly tested in nearly every state in the country, and is extremely popular everywhere.

Wholesale Price, 2 year bushes, 20 cents each, \$1.75 per 10, \$15.00 per 100.

Red Jacket. An American seedling of large size, smooth, prolific and hardy, of best quality. Has been well tested over a wide extent of territory by the side of all the leading varieties, and so far the most free from mildew, both in leaf and fruit, of them all. A wonderful cropper.

Wholesale Price 2 year bushes, 15 cents each, \$1.20 per 10, \$8.50 per 100.

PARCEL POST. Gooseberries can be sent by parcel post, postage prepaid, for 3 cents per bush extra.

RED JACKET

18,600 TREES AND PLANTS

Maloney Bros. & Wells Co.

Gentlemen: We are just finishing planting the 18,600 trees and bushes purchased from you. All were received in first class order and we are justly proud of their appearance, both before and after planting.

Please accept thanks for your painstaking selection, also advice given for planting same and the many courtesies extended by your firm.

Very thankfully yours, J. J. ALLEN, M. D.

Monaca, Pa., May 31, 1916.

You Are Welcome to the Benefit of Our Extensive Experience and Wide Knowledge of the Fruit Business

Strawberries

Wholesale Price of all Varieties

Express : 25 for 50c, 85 cents per 100, \$6.00 per 1000. Mailed Postpaid : 25 for 60c, \$1.00 per 100.

CORSICAN

Brandywine. (Per.) Late. The strong, upright growing plants produce an abundance of very large berries on erect fruit stems. They are of good color and shape and possess a very fine, peculiar flavor. Begins to ripen in mid-season, and continues until blossoms are killed by the frost.

ASPARAGUS

and except near the seashore three pounds of salt early every spring. Do not cut for use until the plants have grown two seasons.

Palmetto. A very early variety, even, regular size and of excellent quality. It has been tested both north and south and has proven entirely satisfactory.

Conover's Colossal. Very large, makes rapid growth; planted mostly by market-gardeners; very productive.

HOLT'S MAMMOTH SAGE. Plants of strong growth. Leaves large, borne well above the ground. Of strong flavor and superior quality.

Price of strong 2 year roots, 10 cents each, 10 for 75 cents.

HORSE RADISH. Will stand a great deal of hardship and exist in soil year after year. Plant in deep, rich, cool soil. The yield will vary according to the soil and treatment. As high as ten tons have been secured from an acre.

Price: Strong Sets, 25 cents per 10, \$1.00 per 100, \$8.00 per 1000.

Corsican. A great strawberry for many reasons. First, it is the biggest berry; second, it is the brightest and best in color; third, it is a great yielder and producer; fourth, and the most important of all, the foliage is exceedingly vigorous and leathery, resisting fungus, drought, weeds, and even neglect of cultivation.

Marshall. An exceedingly handsome, high colored, very large berry of extra fine quality; ripening early.

Senator Dunlap. (Per.) Season early to medium; popular market sort. It withstands all conditions of weather beyond the average. Very productive; dark red all through.

William Belt. (Per.) A handsome variety that is giving remarkable satisfaction as a large productive berry for market or home use. Ripens all over without green tips; good quality; carries well to market and brings highest price.

Fall Bearing Varieties

Americas (Per.) Superb
Productive

These varieties will fruit from early July until cold weather.

Wholesale Price

Express : 50 for \$2.50, 100 for \$5.00
Mailed Postpaid : 25 for \$1.50, 100 for \$5.50.

Garden Roots

PARCEL POST. Garden Roots can be sent by parcel post, postage prepaid, for one cent each extra.

Rhubarb or Pie Plant

Linnaeus. Large, early, tender and fine. The very best of all.

10 cents each, 75 cents per 10, \$5.00 per 100.

Asparagus

30c for 25, \$1.00 per 100, \$6.50 per 1000.

To plant, see that the ground is well drained. Work it up fine and deep, make it very rich with well-rotted manure. Locate the plants eight inches apart in rows three feet apart, spread out the roots in a trench made deep enough to permit the crowns to be covered with three or four inches of mellow earth. Give the bed a dressing of manure

PIE PLANT

Grapes

Wholesale Price of Grapes, 2 Year, Vigorous Vines, Except as Noted

2 Year No. 1 Strong Vines

EACH	TEN	HUNDRED
.15	\$1.00	\$5.50

PARCEL POST. Grapes can be sent by parcel post, postage prepaid, for 2c per vine extra.

We will allow a 6% Discount on all cash orders received throughout the season or its equivalent in stock—Your selection. Order early.

Every city and country garden should have a dozen or more grape vines. They do admirably trained up the side of any building, or along the garden fences, occupying but little room and furnishing an abundance of the healthiest fruit. Plant about 8 feet apart, by the fence or building. For vineyards, make rows 8 feet apart, 6 to 10 feet in rows.

Brighton. Red. Bunch large, well formed; berries above medium to large, round; excellent flavor and quality; one of the earliest in ripening. One of the very best shippers. Vine hardy and vigorous grower.

Catawba. Dark red when fully ripe. Bunch large, berries medium to large, skin thick, tough; flesh somewhat pulpy, with rich vinous flavor, of best quality for both table and wine.

NIAGARA

Concord. Black. Early. Decidedly the most popular Grape in America and deservedly so. Bunch large, shouldered, compact; berries large, covered with a rich bloom, skin tender, but sufficiently firm to carry well to distant markets; flesh juicy, sweet, pulpy, tender; vine a strong grower, very hardy, healthy and productive. For general cultivation the most reliable and profitable variety. Price 10c each, 75c per 10, \$4.00 per 100.

Campbell's Early Black. Strong grower, with large, healthy foliage, productive; its keeping and shipping qualities are equalled by no other early grape. Ripens with Moore's Early. Bunch and berry large, glossy black with blue bloom, sweet and juicy, seeds few and small, part readily from the pulp. Stands at the head of early black grapes for quality.

Delaware. Red. Bunches small, compact, shouldered; berries rather small, round, skin thin, light red; flesh very juicy, sweet, spicy and delicious.

McKinley Early (New White). Strong grower; bunches large, compact and handsome, berries large and oval like Malaga Grapes; green at first, turning to yellow when fully ripe; very sweet. Extra quality; a good shipper; remarkable keeper; will hang on vines sound and perfect for weeks after ripe. Ten days earlier than Niagara with the richest flavor of any Grape on the market.

Moore's Early Black. Bunch large, berry large round with heavy bloom vine exceedingly hardy. Its earliness makes it desirable for an early market. Its hardiness particularly

adapts it to Canada and northern portions of the United States; succeeds admirably in the south.

Niagara White. Occupies the same position among the white varieties as Concord among the black; the leading profitable market sort. Bunch and berries large, greenish white changing to pale yellow when fully ripe. Skin thin but tough; quality much like Concord.

Worden. Black. Bunch large, sometimes shouldered, compact; berries very large, skin thin.

PARCEL POST. Currants can be sent by parcel post, postage prepaid, for two cents per bush extra.

We will allow a 6% Discount on all cash orders received throughout the season or its equivalent in stock—Your selection. Order early.

Black Champion. Bush vigorous and productive; fruit averages above medium; pulp nearly sweet, mild flavored. A desirable variety for general culture.

Cherry. Bush vigorous, stocky and compact; cluster rather short, with short stems; fruit averages large; color fine, bright red; berry thin skinned, juicy and fine flavored. One of the most productive of the large Currants.

Diploma. Large, solid and of good quality, very attractive appearance, both clusters and berries being very large. Vigorous grower and the most productive red currant.

Fay. (Fay's Prolific). Bush vigorous but not quite so strong a grower as Cherry; cluster medium to long, with rather long stems; color darker; and berry averages large; juicy and less acid than Cherry. An excellent commercial variety.

Perfection. In color it is a beautiful bright red, a size larger than the Fay; clusters average longer and the size of berries are maintained to the end of the bunch. It is one of the most productive Currants we have ever known.

Wholesale Price of Perfection, 2 yr, 15 cents each, \$1.00 per 10, \$9.00 per 100, \$75.00 per 1000.

Red Cross.

A strong growing variety. Cluster long; berry medium to large, bright red; quality good to best. It is exceedingly productive, and the currants are of large size. Further than this, the fruit is far sweeter than ordinary currants.

White Grape. Bush vigorous, somewhat spreading, productive; clusters long; berries large to very large, averaging large; of very attractive color, mild flavor and good quality. A good table variety.

Wilder. (President Wilder.) Bush upright, vigorous; clusters above medium length; berries large to very large, averaging large; bright red; excellent, with a mild sub-acid flavor. Ripens early and remains bright and firm until very late. Because of its exceedingly vigorous growth, great productiveness, high quality and remaining good so long after ripening, we recommend this as one of the best red currants, both for table and market.

Anne de Diesbach. Carmine, a beautiful shade; very large. A superior garden sort; fragrant; one of the hardiest.

Blanche Robert. Pure white, large and full, buds very beautiful. A strong grower and a desirable variety.

Bessie Brown. New. Very large, shell-shaped petals of creamy white, faintly flushed with pink, make up into flowers of rare beauty.

Baby Rambler. A dwarf (bush). Just the thing for beds and borders and for edging walks. They are bound to take the place of geraniums and other plants which have to be removed each year. You can have them in Crimson and white. Price 30c each, \$2.50 per ten.

Baron de Bonstetten. Flowers large and very double; color rich, dark red, passing to deep velvety maroon. Very fragrant.

Maloney Trees Larger Than Customers Expect

Lakeville, Mass., Dec. 5, 1916.

Maloney Bros. & Wells Co., Dansville, N. Y.
Gentlemen:—

The 165 trees arrived and I find them to be in fine condition. I am more than pleased with the Hydrangeas, and the Dwarf Apple trees all are larger trees than I expected to get for the money.

Yours truly,
E. H. Sampson

Coquette des Alps. White, slightly shaded with carmine; strong grower and a great favorite. This variety is very valuable; it continues to give a profusion of blossoms for weeks after general varieties have finished.

Clio. New. The perfection in Hybrid Perpetuals. Of delicate satin blush with a little deeper center. Large, well shaped and very double. Strong, robust, hardy and prolific. A jewel.

Frau Karl Druschki. Snow Queen. The finest white Hybrid Perpetual Rose, with large, full flowers of splendid form. It is marvelous in its beauty in half opened bud and in the pure white of the full opened bloom. It is the ideal rose for cemetery planting both North and South. It holds its foliage well and is healthy and vigorous and in hardiness it equals any of the Hybrid Perpetuals.

Likes Maloney Hardy Roses Best

Louisville, Ohio, May 8, 1916.

Maloney Bros. & Wells Co.,
Dansville, N. Y.

Gentlemen:—

I wish to inform you that the Rose Bushes and Raspberry plants arrived and are the finest I ever planted.

Thanks for your promptness.
Yours truly,
Mrs. Allen Lentz.

Largest Nurseries in New York State**

Roses (Continued)

MAGNA CHARTA (pink)

PAUL NEYRON (red)

BLANCHE ROBERTS (white)

General Jacqueminot. Brilliant crimson; large and fine. Beautiful in bud and a universal favorite.

Hugh Dickson. Intense crimson, shaded scarlet; very large, full and magnificent form, with high pointed center; growth upright and vigorous, free and continuous blooming; the finest of all autumn roses, highly perfumed.

Killarney. One of the most popular of our garden roses. It is perfectly hardy, a robust grower; color sparkling, brilliant, imperial pink.

La France. Rich satiny peach, changing to deep rose; large and full. A constant bloomer. The sweetest of all.

Magna Charta. Pink and carmine; very large and full; a profuse bloomer. Fragrant. Free grower.

Marshall P. Wilder. Bright cherry carmine; very fragrant and one of the freest bloomers; vigorous.

GENERAL JACQUEMINOT

MAD. CAROLINE TESTOUT

Mad. Caroline Testout. One of the most popular of the Hybrid Teas for the garden. This is the Rose which has made Portland, Oregon, famous. The flowers are extra large, and of a brilliant, shining pink.

Rose Collection No. 18

2 Magna Charta, pink 1 Paul Neyron, red
2 Blanche Roberts, white
5 Strong Bushes 2 year No. 1 worth \$1.25
for \$1.00

Roses (Continued)

Mad. Plantier. Pure white, large and very double. A free bloomer and grower.

Mrs. Laing. Very free flowering; commences early and continues to bloom profusely until fall. Of delicate pink color. Very fragrant.

Margaret Dickson. New, perfectly hardy and very vigorous. A free summer and autumn bloomer. Flowers white with pale flesh center, of a waxy texture and delightful fragrance.

Perle des Jardines. A rich shade of yellow, fragrant—one of the best yellow roses, bush exceptionally hardy.

Prince Camille de Rohan. Very dark velvety crimson, changing to intense maroon.

Paul Neyron. The largest of all. Deep rose color. A free bloomer and vigorous grower.

Climbing Roses

Crimson Rambler. New. Of Japan origin. Very vigorous, growing eight to ten feet a season after it is well established. Entirely hardy and extremely prolific. It blooms in clusters. Of a beautiful crimson color and lasts a long time. It is a jewel.

Baltimore Belle. Pale blush, nearly white. Bloom in clusters.

Prairie Queen. Bright rosy red. Very large and fine.

Dorothy Perkins. A most beautiful shell-pink rambler. In hardiness, nothing more could be desired. Flowers are very double of large size, usually two inches across and borne in loose clusters.

CRIMSON RAMBLER

Tree Roses

THE TREE ROSE—A LAWN FAVORITE

Tree roses are grafted on stems about four feet high which make them tree form, and when in full bloom are objects of beauty. Nothing more attractive can be placed on the lawn. We offer these in the hardiest Hybrid Perpetual varieties. Colors: white, pink, red and crimson. Wholesale price of fine vigorous trees that will bloom the first year, 75c each, \$6.00 per ten.

RECOMMENDS MALONEY ROSES TO NEIGHBORS AND FRIENDS

Norwalk, Conn., April 20, 1915.

Dear Sirs:—

I wish to thank you for the fine rose plants which we have received from you. We feel that you have dealt very honorably indeed with us, and it will give us much pleasure to recommend your house to our friends and neighbors.

Respectfully yours,
MRS. WM. H. FINCH.

CALIFORNIA PRIVET BEAUTIFIES THE HOME

Hedge Plants

California Privet. A vigorous-growing variety, of fine habit, thick, glossy, nearly evergreen leaves. Of all ornamental hedge-plants this is the most highly prized. If cut to the ground one or two years after planting, it makes a very thick hedge right from the bottom, sending up many strong shoots. The leaves are a rich green, and will remain on the plants up to Christmas, and if they are a little sheltered they will keep green almost all winter. This is especially the case if the hedge has attained some age and has frequently been trimmed. Though it is a very strong grower, it can be kept to a low size by frequent trimming. Where a close, compact hedge is desired we recommend California Privet. Should be planted about eight to ten inches apart to give best results.

	EACH	TEN	HUNDRED	THOUSAND
2 Year Strong plants, well branched, 18 to 24 inches	.10	\$.75	\$4.00	\$30.00
2 Year Strong plants, well branched, 2-3 feet	.15	1.00	\$5.00	\$40.00

Barberry Thumbergii. A pretty plant of dwarf habit from Japan. Very graceful and its foliage turns to a beautiful red in the fall. **Strong plants, 18 to 24 inches, well branched, 25 cents each; \$2.00 per 10; \$12.00 per 100.** All Barberries make very fine hedges.

Norway Spruce. There is no evergreen so largely planted as the Norway Spruce. It is indeed a tree possessed with great beauty at all seasons of the year, but particularly in winter when its branches are weighed down with newly fallen snow. This spruce is a rapid grower and is often used as a lawn fence between village or city lots. Norway Spruce can be planted most effectively in groups on the lawn, imitating nature, planted without any particular order, but far enough apart to give each tree an opportunity to expand itself in its beauty.

DANVILLE'S PIONEER WHOLESALE NURSERIES

Beautifying the Home

WHEN roses, shrubs, etc., are planted in the naturalistic style imitating nature as closely as possible, a sightly effect can be produced, which will be a source of pleasure to the owner or to every passerby. In addition, real estate thus improved will enhance in value. This is an important consideration for an appraisal of property, places a good value upon the trees and shrubbery on the grounds.

Many times you have seen a cozy little home nestling among its flowers, vines and trees with an open stretch of lawn. By itself, that home would be just a plain little house. Good taste, thoughtful attention and a little money has brought about the change.

Maloney Shrubs Always Please

Maloney Bros. & Wells Co.
Gentlemen:—

I wish to acknowledge receipt of the trees and shrubs, and to say I am pleased, places it mildly, as every one was a fine specimen and the roots on each one were much larger than I expected.

Also wish to comment on the excellent condition in which above were received, as this part could not be improved upon.

Thanking you for the way in which my initiatory order was handled, and assuring you of more orders in the near future, I remain,

Yours truly,
A. O. Pabst.

South Bend, Ind., May 1, 1916.

THE home grounds, the yard, the garden, the lawn, no matter how large or small, can be made beautiful by an attractive planting of shrubs, roses, ornamental and shade trees, climbing vines and hedge plants at surprisingly low cost and comparatively little care.

The greatest beauty and fragrance does not necessarily come from the rare and high-priced varieties. Many costly flowers are not half as ornamental and lasting as those we list, nor do they stand frost and cold as well.

We propagate the hardy varieties that are most beautiful and lasting, all are upland grown, hardy, healthy, vigorous, well suited for planting in any climate east of the Mississippi.

Stop—Look—Read

If buying diamonds would you purchase from a new concern of whom little was known or an old firm who had proven their reliability and responsibility?

Just so with nursery stock. Many varieties are indistinguishable on arrival—you are at the mercy of the nurseryman. It pays to buy of a firm whose responsibility is established. This is our 33rd year. Evidently Maloney trees are standing the test.

TEA'S WEEPING MULBERRY

AMERICAN ELM

Ornamental Trees

We allow a 6% Discount on all cash orders received throughout the season or its equivalent in stock.—Your selection. Order early.

NO home grounds are really complete without some shade and ornamental trees. The shade of Maples and the dark covers under Evergreens are never forgotten by people who in childhood played and lived under the trees. A comparison of a home without shade trees about it, to one with, is the best argument we can advance.

Magnolia, Speciosa—Flowers smaller, lighter in color than Soulangeana and remain on the tree longer than any other variety. **4-5 ft. \$2.00 each.**

Magnolia, Soulangeana—Chinese variety, dwarf grower, bears showy white and purple flowers, cup-shaped, and three to five inches in diameter. **4-5 ft. \$2.00 each.**

NOTHING will add more value to your property than ornamental trees, plants, shrubs and vines. If you want to sell your home or estate you will find that these improvements will add immensely to its value and beauty. We offer a large variety of ornamental trees, plants and shrubs to choose from. They are all healthy and vigorous growers.

American Elm. A natural spreading and drooping tree of our own American meadows and forests. It is very attractive in any suitable location, is entirely hardy and easily transplanted. There are more Elm trees planted along our streets and highways than any other one variety. This is on account of its dense green foliage, which spreads out from overhead, covering a suitable space of ground in proportion to the size of the tree, which makes it the finest shade tree in the world.

Wholesale Price, 8 to 10 feet, 75 cents each, 10 for \$6.50, 6 to 8 feet, 50 cents each, 10 for \$4.50

MALONEY QUALITY SUPREME

Maloney Bros. & Wells Co.,
Gentlemen:—

I wish to thank you for the fine lot of trees I received in this last order. I have dealt with several nurseries in the past but never received such a fine lot as these, as to branches, roots and uniform size. Several of my neighbors also agree with me. You can look for more orders from me later.

Thanking you for the satisfactory way your concern does business, I beg to remain

Yours very truly,
E. T. Smith.

Pontiac, Mich., May 29, 1916.

VALUE OF SYSTEM

Maloney Bros. & Wells Co.,
Gentlemen:—

The box of trees came yesterday in excellent condition. I was much pleased with the stock and the unusual fine amount of undamaged roots. The packer did well to get so nearly a perfect record where I had ordered such a mixed variety.

Very truly yours,
Oliver A. Lothrop, M. D.

Waban, Mass., Dec. 4, 1916.

Each Order Receives the Personal Attention of a Member of Our Firm. Satisfaction Guaranteed or Money Refunded

Ornamental Trees (Continued)

LARGE FLOWERING CATALPA SPECIOSA

Beech, Purple Leaf. The blood-leaved tree possesses all the qualifications of an ordinary beech and, in addition has beautiful red leaves. Will retain its foliage during the winter and will add greatly to the appearance of your lawn.

Wholesale Price of Purple Beech trees, 2 to 3 feet high, 75 cents each.

CATALPA, BUNGEI

Catalpa Bungei. (Umbrella Catalpa.) Grafted on stems 6 to 8 feet high, it makes an umbrella shaped top without pruning. Perfectly hardy, and flourishes in almost all soils and climates. Leaves large, glossy, heart-shaped. A very desirable ornamental.

Wholesale Price of Trees, 6 to 8 feet, \$1.00 each.

Catalpa Speciosa. One of the most rapid growers. Valuable for timber, fence posts, railroad ties, etc., possesses wonderful durability. Large, heart-shaped, downy leaves, and compound panicles of white flowers.

Wholesale Price for first class trees, 6 to 8 feet, 40 cents each, 10 for \$3.50.

Cut-Leaved Weeping Birch. This noble tree is not only the most popular of the weeping trees, but it is decidedly the best. Its tall, slender, yet vigorous growth, graceful branches, silvery white bark, and delicately cut foliage, present a combination of attractive characteristics rarely met with in a single tree.

Wholesale Price of Cut-Leaved Weeping Birch, 5 to 6 feet trees, \$1.00 each.

Horse Chestnut, White Flowering. The well-known European species; very handsome; has magnificent spikes of white flowers. As a lawn tree or for the street it has no superior.

Wholesale Price, 6 to 8 feet, 75 cents each, 10 for \$6.50.

Maple, Ash-Leaved. (Box Elder). A fine, rapid-growing variety, with handsome, light green foliage and spreading head; very hardy desirable for street planting and succeeds in many sections where other varieties do not thrive.

Wholesale Price 8 to 10 feet, 75 cents each, 10 for \$6.50. 6 to 8 feet, 50 cents each, 10 for \$4.50.

Maple, Norway. This is one of the hardiest ornamental shade trees, and one of the most beautiful. It makes more of a wide spreading tree than the sugar maple.

Wholesale Price 8 to 10 feet, 75 cents each; 10 for \$6.50; 6 to 8 feet, 60 cents each, 10 for \$5.00.

NORWAY MAPLE

Ornamental Trees (Continued)

Maple, Silver Leaved or Soft. Foliage bright green above and silvery underneath. An exceedingly rapid grower. Makes a large tree. A very satisfactory tree to plant in large quantities.

Wholesale Price of Silver-Leaved Maple, 8 to 10 feet, 60 cents each, 10 for \$5.00; 6 to 8 feet, 50 cents each, 10 for \$4.00.

Maple Sugar or Rock. This native tree of ours is a universal favorite for street planting, and desirable everywhere. It is considered a slow grower, but is long-lived.

Wholesale Price 8 to 10 feet, 75 cents each, 10 for \$6.50; 6 to 8 feet, 60 cents each, 10 for \$5.00.

Maple, Wier's Cut-Leaved. One of the most remarkable and beautiful trees, with cut or dissected foliage. Its growth is rapid, shoots slender and drooping, as graceful as cut-leaved birch.

Wholesale Price 8 to 10 feet, 75 cents each; 10 for \$7.00; 6 to 8 feet, 60 cents each, 10 for \$5.00.

Mulberry, Downing. This tree is not alone valuable for the large refreshing berries it bears, but is very handsome as a lawn or street tree. This should be in every yard or garden.

Wholesale Price, 4 to 5 feet, 50 cents each, \$4.50 per 10.

Mulberry, Russian. Very hardy, vigorous grower, very productive, fruit black and of medium size.

Wholesale Price, 5 to 7 feet, 35 cents each, 10 for \$3.00.

Mulberry, Tea's Weeping. The most graceful and hardy weeping tree in existence. Forms a perfect shaped head, with long, slender, willowy branches, drooping to the ground.

Wholesale Price, 5 feet, \$1.25 each.

Poplar, Carolina. This tree takes front rank among the best of the poplars. It is one of the most rapid growers among shade trees, frequently growing eight feet during one season and thus making fine shade in two or three years. It is very desirable when planted at the roadside, in parks or along rivers and streams. It has an advantage over other shade trees because it will grow in any kind of soil.

Wholesale Bargain Prices for Carolina Poplar trees 10 to 12 feet high, 30 cents each, 10 for \$2.50 100 for \$20.00.

8 to 10 feet high, 25 cents each, 10 for \$2.00, 100 for \$17.50.

6 to 8 feet high, 20 cents each, 10 for \$1.50, 100 for \$14.00.

Poplar, Lombardy. A well known variety from its tall spire-like form. Where it is desired to mark a boundary line, or where there is an entrance to a driveway these trees are very effective. We have some beautiful specimens and can recommend them highly. They transplant safely, grow quickly and for many purposes are attractive and desirable.

Wholesale Price, 8 to 10 feet, 40 cents each, \$3.50 per 10, \$30.00 per 100.

Thorn, Double Pink. Double pink or rose flowers, with white tips.

Wholesale Price for first class Trees, 4 to 5 feet, 75 cents each.

Thorn, Paul's Double Scarlet. Flowers deep crimson, with scarlet shade; very double.

Wholesale Price of Trees, 4 to 5 feet, 75 cents each.

Thorn, Double White. Small, double daisy-like flowers in clusters.

Wholesale Price for first class Trees, 4 to 5 feet, 75 cents each.

WIER'S CUT-LEAF MAPLE

Willow Babylonica. Our common well-known weeping variety; forms a large round-headed, graceful tree; requires plenty of room, and where space can be spared, is quite desirable.

Wholesale Price, 7 to 8 feet, 75 cents each.

CAROLINA POPLAR

Maloneys Guarantee Absolute Satisfaction Or Refund Your Money

PEOPLE from all parts of the United States express their appreciation of Maloney way of dealing direct. We cut out all agents and middlemen, which means a saving to you of at least 50%. Maloneys try to give you the best service at the lowest possible cost—it is to our mutual advantage to furnish the best trees, deliver them promptly and in good condition. Furthermore, if anything arrives which is not satisfactory, we guarantee to replace it or refund your money without question—that's why Maloneys have so many satisfied customers, a few of which are listed below.

Candia, N. H., May 24, 1916.
Maloney Bros. & Wells Co.,
Dansville, N. Y.

Gentlemen:—

The trees, etc., arrived the 22nd, and are in good condition. They are a nice lot of stock.
Yours truly, T. H. Baker.

Faillbury, Ill., June 5, 1916.
Maloney Bros. & Wells Co.,
Dansville, N. Y.

Gentlemen:—

Trees, bushes, etc., reached me in good order and gave me perfect satisfaction. They had fine roots, I never saw more promising trees.
Mrs. A. H. Remington.

Fairfield, Conn., May 15, 1916.
Maloney Bros. & Wells Co.,
Dansville, N. Y.

Gentlemen:—

The trees arrived in fine shape and were the finest I ever bought. I have set about 200 in the last few years that I have had the farm. I can recommend your stock to any one.

Yours truly,
M. L. Wilson.

Bowdoinham, Me., April 24, 1916.
Maloney Bros. & Wells Co.,
Dansville, N. Y.

Gentlemen:—

The apple trees, etc., that I ordered of you arrived O. K. and I am much pleased with them. They are as good, if not better, than I could buy from local agents for forty to sixty dollars per hundred. Hope to send you another order either this year or another spring.

Very truly yours,
Fred D. Heath.

Quaker City, Ohio, April 27, 1916.
Maloney Bros. & Wells Co.,
Dansville, N. Y.

Gentlemen:—

Received my trees on the 24th in fine shape. They are the best that I ever bought.
Yours respectfully,
H. M. Smith.

Pequannock, N. Y., May 1, 1916.
Maloney Bros. & Wells Co.,
Dansville, N. Y.

Gentlemen:—

Have received my order and must say I am pleased with both trees and service. I have recommended your firm to a number of people. With best wishes, I remain,

Yours truly,
Henry Wachtmann.

Union, N. Y., Nov. 6, 1916.
Maloney Bros. & Wells Co.,
Dansville, N. Y.

Gentlemen:—

The nursery stock was received in due time and have them all planted. I wish to thank you for the prompt shipment and painstaking in packing.

Yours truly,
Geo. E. Becker.

Philadelphia, Pa., May 13, 1916.
Maloney Bros. & Wells Co.,
Dansville, N. Y.

Gentlemen:—

I have received all the goods in first class condition. Thanking you for the strong plants you have sent me, I am,

Yours truly,
Otto Woehr.

The Rural New Yorker Corrects An Erroneous Impression

The complaint of J. S. regarding nursery stock purchased from F. W. Wells Wholesale Nurseries, Dansville, N. Y., which appeared in the issue of October 14th has, it appears, done an injury to a very good and reliable nursery firm—Maloney Bros. & Wells Company. Some readers have assumed that Mr. F. W. Wells is connected with Maloney Bros. & Wells Company. This is not the case and we desire to correct the erroneous impression and do justice to the firm of Maloney Bros. & Wells Company, the record of which is clear.—*Rural New Yorker*, Nov. 11, 1916.

PURPLE FRINGE

DEUTZIA, PRIDE OF ROCHESTER

Hardy Flowering Shrubs

Wholesale Price	Large Size	2 Year	EACH .25	TEN \$2.00
PARCEL POST. Shrubs can be sent by parcel post, postage prepaid, for 3 cents per bush extra.				

We will allow a 6% Discount on all cash orders received throughout the season or its equivalent in stock—Your selection. Order early.

Shrubs are useful in bringing out the full beauty of a house. Splendid effects can be had by planting an assortment of flowering shrubs on the lawn, not at all difficult to arrange them, for a group planted promiscuously here and there, has a splendid effect, and at our wholesale prices, enables you to improve the home at a very reasonable price.

Althea. A large shrub, sometimes trimmed into tree form, that blooms freely in August or September, when almost every tree is out of bloom. Vigorous grower and succeeds everywhere. Also called Rose of Sharon. We can furnish double varieties in these colors: Althea Double Purple, Red, Pink and White.

Azalea, Mollis. This little plant is literally covered with bloom in April or May. Flowers are large and of a variety of colors in shades of red, yellow and orange. **50c each, \$4.00 per 10.**

Azalea, Ghent. Handsome and distinct shrub from Japan; unequalled for brilliancy and variety of color, while flowers are not so large as in the Mollis, the color is more delicate. **75c each; \$6.50 per 10.**

Butterfly Bush. Seems to attract butterflies in large numbers. It produces long, graceful stems which terminate in tapering panicles of beautiful lilac-colored flowers that are of miniature size and borne by the hundreds on a flower head which is often ten inches long. It blossoms from early summer till frost; splendid for cutting. **35c each.**

Barberry Purple. Similar to Common Barberry only that the foliage is purple.

Maloney shrubs are hardy, upland grown at an elevation of 1500 feet; varieties listed are the hardiest, most beautiful and lasting, thrive everywhere and need little care or attention when once established. Year after year they grow larger and more beautiful.

Barberry Thumbergii. A pretty plant of dwarf habit from Japan. Very graceful and its foliage turns to a beautiful red in the fall. All Barberries make very fine hedges.

Calycanthus. (Sweet-scented shrub.) The wood is fragrant; foliage rich; flowers are of chocolate color, having a peculiarly agreeable odor.

Deutzia, Gracilis. Pure white flowers in June. Two feet high when fully grown.

Deutzia, Grenata, Double-Flowering. A hardy, vigorous shrub that does not suffer from insects or diseases and early in the season is fairly covered with very showy double white flowers that on the edge are slightly tinged with rose. Handsome, desirable shrub.

Deutzia, Lemoinei. Dwarf, the flowers are large pure white and produce freely.

Deutzia, Pride of Rochester. Blooms in May. Double, white, tinted with rose on the edge.

Fringe Purple or Smoke Tree. A very elegant and ornamental large shrub, with curious, hair-like flowers of a pinkish brown color which sometimes literally cover the tree and remain all summer. **35c each; \$3.00 per 10.**

Maloneys Grow the Trees and Plants They Sell

DANVILLE'S PIONEER WHOLESALE NURSERIES

Shrubs (Continued)

Fringe White. A popular and much admired shrub of moderate growth, and rounded form, with large, dark green, glossy leaves, and long drooping panicles of beautiful white fringe-like flowers.

Forsythia Fortunei (Golden Bells.) Deep yellow flowers in great profusion in April.

Golden-Leaved Elder. The best of all the colored shrubs. A plant of this bush in a bed, or a border, or on the lawn, is a conspicuous feature, the foliage being as yellow as gold.

Hydrangea Paniculata Grandiflora. Absolutely hardy; thrives in all soils; grows rapidly and blossoms profusely. The flowers are pure white, afterward changing to pink, and are borne in large pyramidal trusses often more than a foot long and six to eight inches in diameter. Begins to bloom early in August, and continues to bloom for several weeks. Wherever known it is considered to be one of the finest flowering shrubs. **30c each; \$2.50 per 10.**

Hydrangea, Arborescens Grandiflora Alba (Hills of Snow)—This hardy American shrub is the very finest addition to this class of plants. The blooms are of the very largest size, of pure snow-white color, and the foliage is finely finished. **35c each.**

Lilac, Purple. An old favorite; purple flowers.

Lilac, White. A well known favorite.

Mock Orange. Flowers white, deliciously perfumed. Derives its name owing to flowers resembling orange blossoms; a delightful substitute for that noble flower.

Perennial Phlox. Hardy and succeeds in any climate. Can be planted in large groups on the lawn or in a row along the border of the roadway. Red, pink, or white.

Quince, Japan. Dark green foliage, and showy deep, scarlet flowers of good size.

GOLDEN LEAVED ELDER IN BLOOM

Spiraea, Billardi. A hardy, free growing shrub. During July every branch and twig is tipped with a spike of beautiful blood-red flowers 4 to 6 inches in length. A distinctive and beautiful flower and shrub.

Spiraea Callosa Rosea. Has large panicles of deep rosy blossoms; grows freely and blooms nearly all summer; fine.

Spiraea Douglassi. Has spikes of beautiful, deep rose-colored flowers in July and Aug.

Spiraea Van Houttei. This is undoubtedly the best of the spiraeas. The cut shown is a fair one and shows it in full blossom. The blossoms are white. Do not pass it by.

Syringa, Common. Large, white flowers; very hardy.

Syringa, Golden. Large, deep yellow flowers; bush hardy. **35c each.**

THE BUSH HYDRANGEA (Paniculata Grandiflora)

Maloney's Flowering Shrub Collection No. 8

FOR THE HOME GROUNDS

8 Hardy Shrubs, Worth \$2.05 for \$1.50

- 1 Calycanthus
- 1 Deutzia, Gracilis
- 1 Hydrangea, P. G.
- 1 Mock Orange
- 2 Spiraea Van Houttei
- 1 Weigelia, Rosea
- 1 Syringa, Common

Nashua, N. H., Nov. 18, 1915.

Gentlemen:—

Shrubs arrived in fine condition, am much pleased and hope to send you a larger order in the spring.

Sincerely,
MRS. GEORGE E. BAKER.

Evergreens

EVERGREENS are increasing in popularity rapidly. We are now giving special attention to the propagation and culture of perfectly hardy species and varieties, such as are most useful to the general planter.

We recommend Spring planting. All evergreens will be lifted with ball of earth and roots wrapped in burlap.

American Arbor Vitae. A beautiful native tree much used for hedges, screens, singly on lawns and in tubs for porches. It is a handsome little tree and if allowed to grow natural, will be quite tall and pyramid shape. Can be trimmed and kept in any form or height. In the summer is bright green above and yellow below, and when winter comes, changes to the richest tone of brown and bronze.

Wholesale Price 2 to 3 feet, 30c each, \$2.50 per ten. 1 1-2 to 2 ft. 25c each, \$2.00 per 10.

Balled and burlapped.

Colorado Blue Spruce.

Foliage is blue and sage—that distinctive color which is so rare in the east. The Blue Spruce is the most beautiful of conifers. Its silver foliage glistening in the sunlight, makes it surpass in beauty any other evergreen. Tree usually has a symmetrical shape, narrow pyramid or round top. It is very hardy, a good grower, will withstand severe winters as well as excessive moisture and is easily transplanted.

Wholesale price, 2 to 3 feet, \$1.50 each.

Balled and burlapped.

Norway Spruce. There is no evergreen so largely planted as the Norway Spruce. It is indeed a tree possessed with great beauty at

all seasons of the year, but particularly in winter when its branches are weighed down with newly fallen snow. This spruce is a rapid grower and is often used as a lawn fence between village or city lots.

Norway Spruce can be planted most effectively in groups on the lawn, imitating nature, planting without any particular order.

Wholesale Price Largest size, 2 to 3 ft., 30 cts. each; \$2.50 per ten; \$20.00 per hundred. Balled and burlapped.

Irish Juniper.

Junipers are handsome evergreens, always neat and clean. This variety grows exceptionally slim and common-like. A general favorite for cemeteries and

other planting.

Wholesale Price 1 1-2 to 2 feet, 40c each, \$3.50 per ten.

Balled and burlapped.

Koster's Select Blue

Spruce. (Grafted)—The finest of all blue evergreens, selection from the Colorado Blue of extra fine color and compact free growth. Very dense on branch ends like all spruces and has regular slim branches, all growing to the same length in the same form.

Price, 2 to 3 feet, \$2.50 each.

Balled and burlapped.

This Illustrates the Fine Effect of Evergreen Planting

DANSVILLE'S PIONEER WHOLESALE NURSERIES

Shrubs (Continued)

SNOWBALL COMMON

Snowball, Common.

A popular shrub. Makes a large bush. Bears balls of pure white flowers in June.

Rhododendron

(Rosebay)--No shrub in Nature's garden the world over, can compare with this.

\$1.00 each.

Upright Honey

Suckle (pink.) Pink flowers which contrast beautifully with the foliage.

Weigela, Candida.

The flowers are of the purest white, blooming in June, and all summer. Hardy.

Weigela Eva Rathke.

With showy, bright red flowers borne freely during the summer.

WEIGELA ROSEA

Weigela, Floribunda.

The flowers are dark crimson, with white stamens somewhat like Fuchsia flowers. It blooms in the spring and in the fall.

Weigela, Rosea.

This is one of the most charming shrubs in cultivation; it cannot be too highly recommended; the flowers are large and of deep rosy color, and are borne in great profusion.

Hydrangea Tree Form

Same as Hydrangea P. G. except in tree form, being grafted on a Hydrangea stalk about 3 ft. high. When in full bloom are very attractive. **Price 75c each.**

Hardy Climbing Vines

We will allow a 6% Discount on all cash orders received throughout the season or its equivalent in stock—Your selection. Order Early.

Ampelopsis Veitchi (Boston Ivy.) This is one of the finest climbers we have for covering walls, as it clings firmly to the smoothest surface, covering it closely with overlapping foliage, giving it the appearance of being shingled with green leaves.

Wholesale price of strong 2 year plants, 35 cents each.

American Ivy or Virginia Creeper (A. Quinquefolia). A native vine of rapid growth, with large luxuriant foliage, which in autumn assumes the most gorgeous crimson and purple coloring.

Wholesale price of strong 2 year plants, 25 cents each.

Dutchman's Pipe. Brownish flowers, resembling a miniature pipe; splendid for archways or verandas.

Wholesale price of strong 2 year plants, 50 cents each.

Halleana (Hall's Japan Honeysuckle). An almost evergreen honeysuckle of the greatest value, being hardy and of strong growth. The flowers are fragrant, of a pure white, changing to yellow.

Wholesale price of strong 2 year plants, 25 cents each.

Henryii Clematis. A vigorous grower and a free bloomer, producing its large pure white flowers constantly during the summer and early autumn. The best large-flowered variety

Wholesale price for strong 2 year plants, 35 cents each.

Jackmanni Clematis. The flowers are large, intense, rich, velvety violet-purple, and are produced in such masses as to form a cloud of bloom. This is the best known Clematis, and should have credit of the great popularity now attending this family of beautiful climbers. Though originated in 1862, since which time many new varieties have been raised and introduced, the Jackmanni has no superior and few equals.

Wholesale price for strong 2 year plants, 35 cents each.

PARCEL POST. Climbing Vines can be sent by parcel post, postage prepaid, for 5 cents per vine extra.

PANICULATA CLEMATIS

Paniculata Clematis (Sweet-scented Japan Clematis). Of very rapid growth, quickly covering trellises and arbors with handsome, clean, glossy foliage. The flowers are of medium size, fragrant, pure white, borne in immense sheets in September, when very few other vines are in bloom.

Wholesale price of strong 2 year plants, 25 cents each.

Trumpet Vine. A robust, woody vine; twining tightly with numerous roots along its stems. Its orange scarlet, trumpet-shaped flowers cluster at the tip of the branches. Plant in a sunny spot in good garden soil, dug very deep, placing the crown of the roots three-fourths inch below the surface.

Wholesale price of strong 2 year plants, 25 cents each.

Wisteria, Chinese Purple. A most beautiful climber of rapid growth and producing long pendulous clusters of pale blue flowers.

Wholesale price of strong 2 year plants, 35 cents each.

CLIMBING VINES ARE USED TO GREAT ADVANTAGE IN MANY WAYS

Nut Trees

This grove of about 200 trees produced last season \$1850.00. As the trees advance in years, the crop will be considerably heavier and naturally the profit greater.

English Walnuts are regular bearers, for the fruit buds are hardy and never injured by late frosts. Nut culture in the United States, is in its infancy. The English Walnut can be grown in the Northern and Eastern states, as well as in California and the South, for nuts grown here find a much more ready sale at advanced prices, as the flavor is decidedly better. The constant and growing demand for English Walnuts, and the immense quantities of them yearly imported to meet it, have given a great impetus to the planting.

So palatable and wholesome are the nut kernels, that they should become a staple article of food here as in Europe. The returns from orchard above illustrated, show plainly how successful nut culture may be made in the Northern and Eastern states.

Until recently little attention has been given to the planting of English Walnuts, therefore, it may be truly said he who plants now, is bound to reap splendid returns. Most farms contain land that would pay better planted to English Walnuts, than anything else, for they will thrive on such land as is suitable for raising potatoes, corn and grain.

Every garden or lawn should also contain one or more of these trees for they are well shaped and provide splendid shade.

While we have a big supply of the 3-4 ft. trees, we anticipate a heavy demand, and would suggest you place your order early and thus avoid disappointment.

Chestnut, American Sweet is adapted to a great portion of this country. It is valuable as a nut producing tree, timber and ornamental purposes.

Wholesale Price of 4 to 5 ft. trees, 50 cents each, 10 for \$4.50.

Chestnut, Spanish. A handsome round-headed tree, producing abundantly, very large nuts that find a ready market at good prices.

Wholesale Price of Spanish Chestnut trees, 4 to 5 feet, 50 cents each.

Butternut. A fine native tree producing a large longish nut, which is prized for its sweet, oily, nutritious kernel.

Wholesale Price of Butternut trees, 4 to 5 feet, 50 cents each.

PARCEL POST. We will send 2 to 3 ft. trees of the above varieties by parcel post, postage prepaid, for 30 cents each, \$2.50 per 10.

Pecans. This nut is very productive and delicious.

Wholesale Price 3 to 4 feet, 50 cents each.

PARCEL POST. 1 to 2 ft. Pecans can be sent by parcel post, postage prepaid, for 25 cents each.

We will allow a 6% Discount on all cash orders received throughout the season or its equivalent in stock—Your selection. Order early.

Walnut, English. A fine, lofty, growing tree, with handsome, spreading head; produces large crops of thin-shelled, delicious nuts which are always in demand at good prices. Every home garden should have one or more English Walnuts. Tree very hardy, will succeed well in all states east of the Mississippi.

Wholesale Price, 3 to 4 feet, 50 cents each.

PARCEL POST. First class 18 to 24 inch English Walnut trees can be sent by parcel post, postage prepaid, for 40 cents each, \$3.50 per 10.

Walnut, Black. The common well-known Black Walnut, the wood of which is most beautiful and valuable. It is very productive in nuts, which are liked by many.

Wholesale Price, 4 to 5 feet, 50 cents each.

PARCEL POST. 2 to 3 feet Black Walnut trees can be sent by parcel post, postage prepaid, for 30 cents each.
